## Definitions

First, let's get some important terms (definitions) out of the way:

**Fraud** -- "... depriving the public or a specific individual of money, property, services, or valuable security through unlawful and or deceptive means.

**Elected** -- means someone who qualified voters collectively put into a position of trust to provide services *at cost* and do so in compliance with every aspect of domestic (not foreign) law.

**Installed** – not elected, secretive, founded in deceit & fraud therefore criminal, without lawful title or consent of the People, appointed by unknowns, usually foreign and criminal. In Canada, UN is the foreign criminal appointing replacements of elected officials and government.

**'in-Right-of Ontario'** and **'in-Right-of Canada'** -- means a person is holding power as a consequence of another power, or holding power as a consequence of a relationship.

**Elected representatives** – form a "*de jure* government" because you provide your consent to permit the representative to govern your public (not private) affairs. *De jure* means rightful, legitimate, constitutional, legal and lawful.

**De Jure Government** – elected, accountable, public, sovereign, autonomous, with each level of *de jure* government having its own jurisdiction and geographical area, and independent law-making ability, with fiduciary and judicial powers, and where the jurisdictions do not overlap.

**De facto government**" – usually created by an act of treason, where one or more government officials sell their signature and influence in government to foreign and/or criminal interests, typically corporate and political. This is orchestrated in a manner where the transfer is not public knowledge and the foreign/criminal entity is installed without public authorization, illegitimately and criminally replacing the elected government. *De facto* governments are CORPORATIONS or Dictators MASQUERADING AS GOVERNMENT, using force, deception, fraud.

**De Facto Mayor** -- private, corporate, Mayor/Council/Board acting as 'fronts' who stand between the public and the private corporate

invaders; actually appointed through the rigging of elections. The WEF pays your Global Mayor to bring your town into the UN global governing system, and to establish a 15-Minute SMART City State within the geographical boundary of the municipality.

**WEF – World Economic Forum** is a globalist corporation masquerading as 'world government', complete with unelected bureaucrats pushing an agenda to control the entire world and everything and everyone in it, including food, water, air, children, society and life itself.

**UN - United Nations** is a foreign global corporation, one of the most evil ever created, that is intended to implement and run the World Government, by pretending to work for peace and protection of the environment. It was restructured from the League of Nations right after WWII, which was restructured from the Nazi regime. Like any infection, it has taken over the entire world using bribery, black-mail, and pedophile and sex trafficking networks at the highest levels of every government and corporation. A former top official of the United Nations exposed how the UN is a criminal platform for oligarchs to seize control over the entire world – [listen here](#).

**Great Reset (WEF/UN)** -- action to force sovereign nations to turn over their governments, resources and citizens to World Government control, with the UN administrating the world government.

The **Great Reset** Cover Black's Law Dictionary, 9<sup>th</sup> Edition definition of Reset: n. Scots law. **The act or an instance of knowingly receiving stolen goods.**

Free 9<sup>th</sup> edition [here](#).

**WEF Chairman, Klaus Schwab, his World Economic Forum (WEF) and the United Nations (all foreign corporations), infiltrated Canada using Global Leader Programs, such as the Global Mayor initiatives, Young World Leaders and hundreds of other Public-Private Partnerships (PPPs), and non-governmental organizations (NGOs) that impose WEF/UN dictates on sovereign nations and their people.**

**Public/Private Partnerships (PPPs) – are private service corporations that partner with a government department, ministry, municipality or part of anyone of these. For the partnership to exist, the entire infrastructure of the department, ministry, municipality or part of anyone of them transfers their entire infrastructure, at taxpayer expense, including computers, office equipment, databases, and staff to the PPP. This is a United Nations (UN) concept. DETAILS OF HOW PPPs WORK IN CANADA are below. See PROPERTY THEFT page in Series #2 for an example of a PPP scheme, another at PENSION FRAUD page in Series #2, and lots more on the MUNICIPAL FRAUD page in Series #1**

**Non-governmental Organizations/Agencies (NGO's) – are private**

corporations created by the United Nations (UN) to influence and even write legislation, direct, train, guide and otherwise 'assist' PPPs to control the 'government' authorities who form the other half of the PPP, until the entire PPP becomes 100% private (privatizing of government services and assets).

**Sustainable Development** – an undefined term concocted by the UN that means society will conduct itself in accordance with the ideals of globalists. This term is the flagship of the Climate Change Hoax you can learn about on the page CLIMATE CHANGE HOAX.

**Climate Change** – a theory and undefined term concocted by the UN used with an intent to create fear, based on UN fraudulent science.

## Introduction

**It is essential to read this in conjunction** with our PUBLIC-PRIVATE PARTNERSHIP page, as well as our UN INVASION, MUNICIPAL FRAUD pages, which are all in Series #1. Check the PROPERTY THEFT page of Series #2.

**Myth:** elections are about voting in a trustee accountable to the voters that will administer the public's assets in the best interests of the electorate.

**Myth:** corporations are non-profit.

**Myth:** that local governments were not incorporated and privatized until recently.

**Myth:** organized territories (municipalities) have only recently been taken-over by public-private partnership arrangements, the first step in the 2-step dance to privatize the entire territory.

**Myth:** the elected officials work for the people of their jurisdiction, and the service corporations work for the elected officials.

The British CROWN was a massive corporation set up not long after the first and largest corporation, the Roman Catholic Church, was set up in 246 AD.

The ONLY interest the corporations had and still have, was to find more assets to take-over, more and more sovereign people to enslave and more resources to steal for the corporations that all ultimately were controlled by the British CROWN (corporation), and more recently, the Vatican/UN/World Government.

The corporate structure is used in commerce because it provides a safe place from which to undertake any and all crimes, including mass murder, human and drug trafficking, pedophile networking, resources theft and invasions of sovereign nations. From the CEOs to the shareholders, no one is ever held accountable, even for crimes against humanity, such as the COVID vaccine crisis has caused.

The British corporation called the CROWN, did not 'colonize' Canada, Australia and other sovereign landmasses, for ANY REASON BUT to have an

unorganized territory from which to run their opium and human trafficking (slavery) trades. The interest in Canadian resources came much later, when it could 'organize' the territories/localities into profit centres called corporate cities, towns, villages and so on.

All societies/communities in all commonwealth countries were turned into for-profit subsidiary corporations of the corporate CROWN in the 1880s, and ALL natural men and women were turned into 'incorporated inhabitants' of the resulting for-profit corporations without their knowledge or consent.

This was done through corruption, deception and pure evil since 1842 – slowly, very slowly by indoctrinating generations of Canadians to believe there was a legitimate Constitution of Canada, when in fact there were nothing but agreements between corporations, that would, through time, merge, dissolve, become insolvent, or taken-over by bigger corporations, such as the Vatican/UN/WEF.

Almost all municipalities since the British colonized Canada to the present time are *subsidiary* corporations of the provincial corporation, in Ontario known as the PROVINCE OF ONTARIO, which is a subsidiary of the corporation known as the corporate CROWN (first the British CROWN and then the Vatican CROWN).

Incorporation of organized territories in what would become the landmass Canada, first occurred with Halifax, Nova Scotia, in 1842.

Incorporation of Ontario territories into municipalities started well before 1888. In 1849 the parent corporation (corporate Province of Ontario) decided to 'regulate' the many corporations that were sprouting all over the landmass, with the passing of *The Municipal Corporations Act, 1849*, which was amended in 1851.

Then the ***Municipal Act of 1887*** ([archived here](#)) gave the incorporated municipalities more power, until this Act was eventually replaced by the *Municipal Affairs Act, 1990*.

The ***Municipal Affairs Act, 1990***, passed 5 years after the UN formally took over the governance of all levels of corporate governments in 1985 by means of the ***United Nations Act, 1985*** ([archived here](#)), gave us the destructive, wealth transfer taxation system based on market value of properties and it fired-up the transfer of elected officials to the status of employees of the UN-controlled corporation, installed first as a PPP.

The 1990 Act was repealed and replaced by the ***Municipal Act, 2001*** ([backup version here](#)) that has been amended some 88 times since 2001,

driving the enslavement spike deeper with each amendment. In fact, the electorate has lost all control of what used to be local government, services and assets.

Once the British CROWN released the Canadian, Australian and other Commonwealth countries from British colonization in 1931, by means of the Statute of Westminster, no province thereafter could be lawfully colonized. But nothing stopped corporate raiders from raping and pillaging local governments and their residents. See the CONSTITUTION-CHARTER FRAUD page in Series #3.

See [here](#) the Balfour Report, Statute of Westminster, 1931, The Canadian Encyclopedia, [here](#) the Declaration on the Granting of Independence to Colonial Countries and Peoples 1960.

In 1976, two International Covenants had been signed by Canada that purportedly ended enslavement in all its forms (no more income taxation of men and women, only of businesses), and that purported to provide recourse if rights were violated. That did not stop any of the corporate raiders, because the Covenants, as with the purported 'Charter of Rights and Freedoms' and purported federal Bill of Rights, did not apply to anything but government, even if it had been assented to by a legitimate authority.

The 'recourse' for violations of the rights and freedoms agreed to in the [International Covenant on Civil and Political Rights, 1976](#) (ICCPR) and the [International Covenant on Economic, Social and Cultural Rights, 1976](#) (ICESCR), would end up being the extremely unlawful, corrupt and destructive Administrative Law Tribunals of the United Nations that we see today.

**But in 1985, the UN did illegally re-colonize sovereign provinces and we will show you how it was done while no one noticed the replacements of domestic corporate governments and courts at every level with the UN government and laws. Moreover, people were giving their consent without realizing it.**

The UN's Sustainable Development Goals (SDGs) have negative impacts on every aspect of life, including the ending of private property ownership, the ending of all civil rights, the sexualization of children and the luring of youth into homosexual and bisexual lifestyles.

See [here](#) about the Sustainable Development Goals and [here](#) about Canada and the UN's Sustainable Development Goals.

**The UN has worked diligently to strip us of our ownership rights so that we will "own nothing". There is nothing more evil, diabolical, and dictatorial then the Nazi-regime renamed the United Nations.**

**The "sustainability" solutions forced on Canadians will result in the eradication of a large portion of the Canadian population and humanity.**

**The logistics of UN takeover of the Canadian landmass: In 1985 the foreign corporation United Nations took over the corporation CANADA governance of the landmass Canada using the United Nations Act. In 1992, former Prime Minister and criminal Brian Mulroney, signed control over all lands and Canadians to the corporate United Nations. We discuss all this in detail on our CONSTITUTION-CHARTER FRAUD (Series #3)**

**The United Nations corporation then set up Public-Private Partnerships (PPPs) to be inserted between its subsidiary corporations and the municipal governments, so that a seamless transition could be made later to full privatization of government. The pretext was that it would save taxpayers money to have a purportedly expert service provider handle the administration of services. (This was done at every level of government.)**

**The United Nations corporation also set up Non-governmental Organizations (NGOs) which are also for-profit corporations, to direct the transfer of the entire government structure of Canada at all levels to itself in a seamless way that ensured only lawyers, insiders and political traitors knew the transfer of the landmass and its citizens from one corporation (CANADA) to another corporation (UN) had happened.**

**In 1992, with the signature of PM Brian Mulroney on the Rio Accord, at Rio de Janeiro, Brazil, the UN Charter to which most countries are Members, including Canada since 1968, ordered all signatory Members to restructure their existing governments, purportedly to save the planet.**

***\*\*Note* the weasel words again. A charter is strictly an agreement between corporations. UN Members are all nations with corporations masquerading as government, that were originally subsidiary corporations of the CROWN corporation.**

**The sub-national level corporate province run by a PPP, creates the subsidiary corporate franchises and calls them "Municipalities" because the population associates the term 'municipality' with 'government'. The**

corporate province can equally dissolve any subsidiary corporate municipality, whether or not individuals involved in it were elected.

This is standard corporate behavior...mergers, take-overs, creations, hostile take-over, bankruptcies, and dissolution of subsidiary corporations and so on.

All UN-controlled entities running governments at all level are 100% corporate UN global entities and thoroughly *de facto* (*de facto* means, because we say so). This is including the now private OMERS pension system. See [here](#) about AIMCO and pensions aligned with UN Sustainable Development Goals

As a result, they pay no income tax, commit crimes such as extortion of property taxes and trespassing on private property with impunity... see TAXATION FRAUD page in Series #2.

**This UN Takeover of CANADA was done by lawyers who understand the power of words and how to make a swindle look legal and acceptable to the masses. Lawyers speak a foreign language known as "legalese", that comes with its own dictionary. Legalese is also known as 'weasel words'. But neither 'legalese' or 'legal' means 'lawful'.**

Weasel words are words that have more than one meaning, appear to provide legal and lawful information that can be relied upon as 'law' and enforceable. An example is 'mandates'. The truth: they are not law, just marketed as 'law'.

So, politicians who are usually lawyers, together with the lawyers in the corporations masquerading as government, are liars and criminals who write legal fiction, pass it off as law, legalize fraud, corruption, all manner of Biblical sin and can 'weasel' out of every crime, to the point where they aid and abet crime before and after the fact.

**Essential:** review our CRIMINAL LANGUAGE page for the many ways language is used to dupe and control **you to be released in the future.**

In 2017, Klaus Schwab (WEF), admitted to [penetrating](#) all levels of domestic/elected Canadian government using Public-Private Partnerships. The government is the 'public' part of the partnership and the WEF, is the private corporation it partners with. The WEF is also in partnership with the UN and the UN is in partnership with the Communist China (CCP).

Specifically, the WEF's Young Global Leaders Program is the private corporate endeavor in which the WEF trains Canadian government public servants to become 'leaders' in the World Government.

The WEF has managed to have '[many partnerships](#)' with individuals in many organs of Canadian government, essentially training them to lead,

**not the Canadian way, but the WEF communist way. Working for a foreign government to replace your domestic government is treason. There are many 'perks' to working for the UN that you can learn about on our UN INVASION page in Series #1**

**See more about the WEF on our GREAT RESET page.**

## **The Slow Boil of the Canadian Frogs**

**1605 – the first agricultural settlement of Europeans on the landmass that would eventually be called Canada, was in a tiny community in Port-Royal, Nova Scotia. This was an UNORGANIZED territory, that once it became 'organized into a corporate body, was called Acadia.**

**1621 – King James 1 of England gave a corporate Charter to a privateer which allowed the privateer to do business across what would become known as the corporate Province of Nova Scotia.**

**1670 – King Charles II, as head of the British CROWN corporation, granted a corporate Charter to the Hudson's Bay Company to conduct the Indian Trade in the 3.9 million square kilometer territory named after Prince Rupert of the Rhine known as Rupert's Land. It was UNORGANIZED territory that would come to be known as Northern Canada, once it was ORGANIZED into a corporation.**

**As the area granted to Hudson's Bay Company for its exclusive exploitation of the resources became settled and communities became established, they were recognized by the CROWN as 'resources' and slowly incorporated over time as ORGANIZED TERRITORIES run by its subsidiary corporations, under the pretext of 'governing'.**

**Whether natural resources or human resources, everything is expected to be exploited and pillaged to satisfy the greedy.**

**The Hudson's Bay Charter provided these investors that owned the company, not only a trading monopoly, but effective control over the vast region surrounding North America's Hudson Bay. The Hudson's Bay Company was highly successful in also exploiting the resources of what would become Eastern Canada. 'Resources' to a corporation includes the wealth of a community and the private property of its inhabitants.**

**To this day, the Hudson's Bay Charter is the only one still valid, as all others were dissolved as the corporations went bankrupt in the 1931 Great Depression -- no one knows who holds the document today.**

**17<sup>th</sup> century – corporate Acadia was transferred back and forth between the British CROWN and France.**

**1713-1749 – Halifax, Nova Scotia. was an UNORGANIZED territory used as a military base and naval port.**

**1758 – the 1<sup>st</sup> legislature assembled and the first parliamentary government ORGANIZED in the British North American colonies was established and run by Oligarchs in the colony of Nova Scotia and Upper Canada – they did business and presented themselves as 'governing forces' to ensure their businesses met no barriers to raping and pillaging the land for the CROWN who was owned by the private individual, the Queen or King of the time.**

**In Ontario and Quebec, the oligarchs running our country behind the scenes are called 'The Laurentian Elite', who were owners of massive and corrupt corporations still pillaging the country today. Take a look at a good article on The Laurentian Elite [archived here](#).**

**1760 – British CROWN corporation did a hostile take-over of the territory Cape Breton Island.**

**1793 -- Toronto was established as York and incorporated in 1834. Other cities incorporated: St. Catharines (1821), London (1826), Hamilton (1832), Oshawa (1850), Kitchener (1854) and Windsor (1854).**

**1841 – Upper and Lower Canada are united by the [Act of Union 1840](#) ([archived here](#)) to form the corporate [Province of Canada](#), ([archived here](#)) a subsidiary of the British Crown -- Upper Canada becomes known as Canada West and Lower Canada as Canada East.**

**1842 – the first territory to be incorporated in the [Province of Canada](#), was Halifax, Nova Scotia. It became The Corporation of the CITY of Halifax, owned and controlled by the British corporation, the CROWN, through its representative, the Lieutenant-Governor (L-G or LG).**

**1847 – Reformers demanded an end to control of the Nova Scotia landmass by the oligarchs and wanted the elected to serve the elected legislature and the electorate as they did in previous local governments, instead of kowtowing to the corporate businesses. They wanted an end to the British CROWN-appointed colonial government structure.**

**1848 – The CROWN was not about to change anything, so it engaged in some fancy footwork, changed terms, added titles... but in the end, it was still appointing all the decision-makers.**

**The first premier was appointed to act as the corporate province's secretary, forming the 1<sup>st</sup> Ministry operating in British North America.**

**Legally, the corporation was controlled by the parent corporation, the British CROWN, through the CROWN-appointed Lieutenant-Governor. The illusion was generated that the L-G was only a figure-head, but that the elected premier and the elected legislators were making the decisions based on what the electorate wanted.**

**This arrangement allowed for Nova Scotia to appear to be controlled by an Executive Council (aka Board of Directors) or Cabinet of the corporation masquerading as 'government'.**

**This template for maintaining control in the hands of the CROWN corporation would be used across Canada as new territories organized westward.**

**1864 – British corporate CROWN completed the setup of the subsidiary corporation, the Province of Canada, to do business in what was then only four (4) 'provincial' territories controlled by the corporate CROWN.**

**1867 – The Province of Nova Scotia was one of 4 founding corporations of the time that the CROWN tried to force to merge into a federal corporation (to become CANADA, the corporation). (Nova Scotia, New Brunswick, Upper Canada and Lower Canada (Ontario and Quebec)).**

**The merger never happened, as alleged, as none of the corporate heads of the provincial corporations agreed ...see our CONSTITUTION-CHARTER FRAUD page for details about how Sir. John A. Macdonald, the purported PM of Canada at the time, hid the crime that was later revealed by MP Kuhl and covered up.**

**Nonetheless the cover-up worked and it was alleged that the 4 corporate provinces agreed to create the Dominion of Canada, when that was never the case. Quebec would learn of the fraud and then thereafter blackmail the federal government for 'billions' in transfer payments from the other provinces.**

**'Dominion' means, supreme authority over something.**

**1870 – The British CROWN transferred control of the business carried on Rupert's Land and North-Western, which is now known as Manitoba, Saskatchewan, South Alberta, Southern Nunavut and Northern Ontario and Quebec to the corporation called CANADA. At the time they were UNORGANIZED territories.**

**1878 – the 1<sup>st</sup> Universities incorporated by the British CROWN were the University of Montreal and the University of Western Ontario, making education a for-profit enterprise.**

**1887 – the corporate Province of Ontario has incorporated many counties, townships, cities, towns and villages and decided to 'regulate' these many corporations under their *Municipal Act*, 1888. The big money is in the 'regulating' of everything.**

**As you will learn below, no oaths of allegiance were taken except by the voters, and elected officials had to declare themselves holders of offices in the corporations whose names would contain the original name of the territory to trick the inhabitants.**

**1912 – The corporation calling itself CANADA and masquerading as 'government' of the landmass Canada, transferred some of its business in the North to itself by expanding into Manitoba and Quebec. By now you may realize that there is a big difference between the legal entity CANADA and the land named Canada.**

**1930-33 – The Great Depression bankrupts most corporations, including the corporations running Canada and the US. The King proclaimed the Statute of Westminster, 1931 and ended the colonization of provinces.**

**1949 – Ontario's first Premier is required to swear an Oath, but to the British King, not to the inhabitants. This is to keep up 'appearances' that the Premier works for the People, even though the King could not care less about the People.**

**1985 – the corporation CANADA is formally taken over by the corporation UNITED NATIONS, including all public assets and all levels of government.**

**1985-1990 – the UN sets up its scheme to use public-private partnership (PPP) arrangements with the various governments, and particularly municipal governments, as a first step to fully privatize every municipality for profit-taking, without the public ever realizing that their municipality and elected officials were being taken-over by a corporation purporting to work FOR the electorate as a service provider.**

**The UN also sets up endless numbers of non-governmental organizations (NGOs) to grease the slide for the PPPs that are gradually replacing the old municipal government system, where the electorate told the elected officials what they wanted and that was what ruled the day.**

**The 'grease' used was the framing of legislation that gave 100% immunity to every level of government and their staff, and made**

**them absolutely tyrannical and lawless, able to violate property and human rights with impunity.**

**The *Assessment Act*, 1990 was installed to end the taxation on the basis of what utilities were used, to one based on the market value of properties that would only go up as the real estate market was manipulated to drive unjustified 'bubbles' in value.**

**The entire Land Management system of Ontario was transferred to the control of Teranet, a privately-owned corporation, first in a PPP arrangement, soon thereafter fully private.**

**2001 – The UN's NGO wrote the *Municipal Act*, 2001, passed into 'law' by the Ontario provincial level PPP, that legalized the RESTRUCTURING of every municipality into a for-profit corporation without public input and consent. The consequences were that what the public thought were elected officials working for them, were holders of offices in the ultimate for-profit corporation and the world government.**

**The NGO that we provide details about below, also amended the *Elections Act*, 1996, to give full power to the corporation staff (Clerk) to run elections as they see fit, and with the last word in anything municipal.**

**The NGOs wrote legislation to replace the Statute of Frauds that required wet-ink signatures of parties and witnesses in agreements involving land. The new legal fraud allowed electronic signatures requiring no proof of any agreement, and deeming all fraudulent documents 'legal' forever. Massive title, mortgage and value fraud has occurred to dispossess private property owners of their property.**

**See our PROPERTY THEFT page to be released in a future Series, to learn how the PPP scheme was used to steal lands in Ontario in keeping with the UN Agenda 2030 to END ALL PRIVATE PROPERTY OWNERSHIP.**

**2014 – the L-G of Ontario and many traitors in the Canadian government won a UN award for transferring Canadian Citizens to the World Government as World Citizens. This is trafficking in humans.**

**2023 – the carnage in Ontario in particular, has been swift with NO RECOURSE for property owners, parents, the elderly, as fully privatized services are now run by the UN-appointed and controlled corporate shills, such as public health authorities, Mayors, law firms, and so on.**

## **Public/Private Partnerships (PPPs)**

**PPPs are *private* corporations that get into 'partnerships' with elected governments, to eventually take-over the government altogether:**

- **The government is the 'public' partner; a private corporation is the 'private' partner.**
- **The partnership starts off with the government turning over all infrastructure, public assets, staff, database and administrative control to a private individual(s) who creates a corporation in their mind, and makes its existence 'legal' under the *Corporations Act*. But the corporation has no physical presence, only a legal one, until it is handed the physical assets that is owned by the public.**
- **They LOOK like 'government'; they act under the color of law, are never elected and are foreign-controlled.**
- **They SPEND like 'government' and are set up using taxpayer money -- but they are NOT 'government'!**
- **They take over government services and assets that are to be provided *at cost* by the government, and turn them into private mega-profit schemes.**
- **They are supposed to share their profits 50-50 with the 'partner' government, but rarely do, instead keeping up the pretence long enough to convince the public that nothing further will happen.**
- **Slowly, in secret, PPPs are transformed into privately-held corporations free of all accountability, ethical boundaries or necessity to adhere to domestic laws and fundamental human rights.**
- 

**PPPs are a United Nations concept developed to subsume and take-over sovereign governments at all levels under the pretext of providing services to the government.**

**This take-over of the territories, started over 150 years ago, using different terms but the same basic strategy – globalists play the long-game and have a lot of patience:**

- The UN Public/Private Partnerships took over all municipalities, all federal and provincial assets and services and the step after that was to turn the public/private partnership into a fully unaccountable, private corporation, that can charge for their 'services' as they wish.
- Since the UN's NGO writes the legislation it was easy to transfer public assets to the UN's PPP as they wished, and to write the legislation that would be rubber-stamped by the province, ensuring they could commit all the crimes they wished.
- Private corporations are NOT subject to any laws but their own, not even to human rights laws.

**PPPs take-over governments, but NGOs also known as agencies, are also corporations set up by the WEF/UN World Government to guide the PPPs on how to do so. They provide the procedures, the forms, manuals and write the laws, such as the Municipal Acts, Assessment Acts, Election Acts and so on, that we discuss later.**

## **Non-Government Organizations (NGO's) Guide the PPP Actions**

Again, NGO's are corporations created by the corporate UN as subsidiaries. They operate at every level of government. On this page we focus on how they steer the government take-over of municipalities, but they operate Canada-wide. Examples of the most well-known and most damaging NGO's operating in Canada:

### **International Council for Local Environmental Initiatives (ICLEI)**

ICLEI is an *international* corporation that provides information, monitors software and issues its "suggested best practices" on environmental programs and sustainability, which are mandated and taken as though 'law'.

**From the GCOM Canada Brochure: *ICLEI Canada is a 'capacity-building organization (corporation) working with stakeholders... to build more sustainable, low-carbon, energy efficient, climate-ready communities.'***

**In simple terms, it is working with other UN agencies and PPPs to force-feed globalist agendas at the local level, using the fake narrative that we are in danger due to 'climate change'.**

**\*\*Note: THE PUBLIC IS NOT A STAKEHOLDER.**

**The PPPs running the municipalities pay the membership fee in ICLEI from local property taxes.**

**ICLEI:**

- **trains PPP staff on how to advance the implementation of local climate action plans; trains CITY staff on UN Sustainable Development Goals (SDGs), which includes installing 15-minute SMART CITIES and digital ID (cashless financial transactions)**
- **provides templates to deal with implementation "challenges", such as how to deal with negative public input, dissent, how to hide information and how to force their goals as though law**
- **coordinates "stakeholder network" engagement; secures SDG infrastructure financing through the taxation system; stakeholders NEVER includes the taxpayer, the private property owner, or individual**
- **sets down arbitrary mitigation and adaptation targets, such as carbon thresholds, CO2 levels; monitors all energy use metrics through SMART meter systems and grids**
- **reports PPP "progress" to the UN for action.**

**The PPPs, using ICLEI's 'best practices', brought the "Local Agenda 21 Planning Guide" to every Canadian town and city. It is the planning framework used by the UN's Municipal Planners for sustainable development at the local level. (See our MUNICIPAL PLANNER FRAUD page provided in Series #1 to learn about these criminals and how they are stealing private properties, destroying families and businesses and using their UN-influenced 'opinions' to do so.)**

**The Guide -- which Shelagh McFarlane does as good a job of dissecting as any of those who try to understand the double-speak of the UN lawyers -- is discussed [here](#), ([archived here](#)). At page 15 of her document, outlines how a municipal government is to *restructure* local government, and you will notice how it is wielded as a planner weapon against the population, as though law written in stone:**

- jurisdictional reform (amalgamation & regionalization of towns/counties, including the courts and police forces)**
- incorporation of local officials, geographical area & inhabitants into the UN System**
- allow "Stakeholder" partnerships regulatory control of local development**
- force public funding of SMART technology to create the UN 15-minute SMART CITIES**

***"... the implementation of the Local Agenda 21 process requires local governments to decentralize governance, reform their current departmental structures, and change traditional operational procedures. As a result, these local governments are becoming more open, more participatory, and more dedicated agents of the sustainable development agenda."***

**From the ICLEI Guide to Local Agenda 21 Planning preface at page 4:**

***"The strategic planning approach presented in this Guide, therefore, specifically aims to develop municipal service systems and ensure that these systems 1) will equitably distribute their services and 2) can be sustained because they are both economically viable and able to contribute to community and ecological development. In this light,***

***sustainable development in local terms can be defined as follows:***

***Sustainable development is development that delivers basic environmental, social, and economic services to all, without threatening the viability of the ecological and community systems upon ...”***

**They are not talking about providing the ‘services’ taxpayers want, are entitled to and pay for, but what those the UN decides are in keeping with the WEF/UN goal of depopulating the earth and ending all private property ownership by 2030.**

### **The Federation of Canadian Municipalities (FCM)**

**FCM is the provincial-level governing body of roughly 3,700 Provincial Municipalities across Canada run by municipal PPPs.**

**The FCM is a private corporate subsidiary of the UN MEMBER STATE we know as THE CORPORATION of the PROVINCE of ONTARIO, which is run by a provincial level PPP, guided in how to take-over and run the province by ICLEI.**

**“Municipalities” are not public assets or trust structures. They are private foreign service corporations created long ago from UNORGANIZED TERRORITIES that can amalgamate, regionalize and modify their zoning rules and service, essentially run their for-profit businesses, as would any other corporation in the world.**

**Just as Burger King and Tim Hortons have ‘franchises’, so too do the Provincial Corporations run by the provincial PPP.**

**Licencing is simply a corporate franchising scheme where professionals (incorporated inhabitants) pay the corporation to do business in their business area.**

**Similarly, the federal government was taken over in 1985 (see our UN INVASION page for proof and details), and as a UN MEMBER, all government departments and services of CANADA the corporation were turned into PPPs, and eventually, morphed into entirely private (no partnership with government) corporations.**

**That makes PPPs (P3s) 100% bait and switch crimes against the public.**

**So, we have as examples of private corporations that evolved from PPPs that took over the federal, provincial and municipal governments, respectively: Service Canada, ServiceOntario, Corporation of the CITY of ....**

**FCM is the UN intermediary non-governmental agency that creates and supplies the global agenda Sustainable Development Goals templates to each city and town.**

**As one example, the FCM created and distributed the **UN Municipal Primer**, a purported 'instruction guide' that recommended cities and towns across Canada develop their own "Local Agenda21 Plan" to help save the planet. But in fact, this 'Primer' is used as a weapon, just as are Official Plans now presented as 'law', and Planner opinions cited as expert findings.**

**If you want the downloadable and printable pdf of the UN Primer as distributed in 1994, access our [archived copy](#).**

**Here's the '[Local Agenda21 Planning Guide](#)' ([archived here](#)) for Ontario.**

**Most Municipalities promote their Local Agenda21 as "Sustainable Ottawa", "Future Guelph" or "VISION2030", complete with their trademarked UN Sustainable Development Goals (SDG) logos and copyrighted promotion materials.**

**The FCM is also responsible for drafting the *Municipal Act*, 2001, that has been amended over 80 times since then! It has framed the *Assessment Act*, 1990, the *Elections Act* 1996 and so on.**

**Private corporations write the legislation they want and the Minister rubber-stamps them to keep up the pretence that the Ministry still has control of municipal affairs.**

### **[The Association of Municipalities of Ontario \(AMO\)](#)**

**AMO represents all PROVINCIAL Municipalities in Ontario, at last count, 444. You now know that these municipalities are actually privately owned for-profit corporations that morphed from PPPs that took-over our elected representatives and our city halls. See the list of Ontario municipalities [here](#).**

You can see the AMO website, [here](#) ([archived here](#)). This NGO has a Memorandum of Understanding (MOU) with the Provincial-PPP that recognizes Ontario's municipalities as a "mature, accountable order of government". You can see the July 28, 2021 [MOU here](#), ([archived here](#)) and note its reference to the partnership:

*'The formal agreement between AMO and the Province sets out the roles and responsibilities in their partnership.'*

**This is merely an agreement/contract between two corporate bodies, with one transferring some control over subsidiary municipal corporations (formally local government) to another.**

Let's breakdown this reference to 'mature and accountable', shall we: mature means they are fully private corporate subsidiaries of the provincial corporation masquerading as legitimate government, operating a *de facto* enslavement system, that have agreed to conspire (politically-correct word is 'collaborate') with the foreign parent corporations, the UN/WEF, to advance globalist's goals cleverly termed sustainable goals and to extort loads of taxpayer dollars as a reward.

The AMO is used as another UN weapon to impose and enforce the global government agenda and the SDG Action Plans locally – they act as though an arm of the rightful provincial government structure but are not...they are an arm of the UN government structure.

You will note from the wording of the MOU, that the corporate provincial government has to 'consult' with this NGO before implementing any legislation or policies and not the other way around. Clearly our elected officials are not remotely running the show.

**Especially, the task of the AMO is to ensure local taxes are diverted to their coffers to finance their actions against inhabitants.**

What you will find with most of the UN's public-private partnerships and non-governmental organizations (PPPs and NGOs) is that they often change their names, merge and redefine themselves, making deep dive research into their backgrounds and associations extremely difficult.

From the AMO's website June 15, 2024:

***"The Association of Municipalities of Ontario was created through the merger and reconstitution of the Ontario Municipal Association and the Ontario Association of Mayors and Reeves on June 22, 1972."***

You will also find that there is rarely any mention that elected officials cannot take their seats at City Hall UNTIL they have signed a Declaration of Office in the UN's government structure. Yet, every aspect of municipal government is now controlled by these PPPs and NGOs that are 100% United Nations owned and controlled corporations.

From the [AMO's website](#) we learn that it 'influences' municipal officials through its programs and training courses, in how to ignore pesky residents and instead to conduct 'business' in the best interests of the corporate municipality: [bracketed comments are ours and the underlining is emphasis]

***"AMO works to make municipal governments stronger and more effective. Through AMO, Ontario's 444 municipalities work together to achieve shared goals and meet common challenges. [those challenges as laid out by the UN Agenda 21 and 2030 to end private property ownership and install 15-minute SMART CITY open prisons]***

***Through our policy development, cost-saving programs, conferences and training opportunities, AMO provides municipal officials with tools to succeed, and programs to help maximize taxpayer dollars.***

Guess what the AMO's objectives are for 2024? From their website, see this NGO's [strategic goal of Re-focus on climate change and environment \(archived here\)](#) buried in other goals that should be handled by each individual municipality and not by a UN NGO.

**The real purpose of this NGO is to control municipal mayors and councillors so that they will impose UN Agenda 21 and 2030 goals, including the installation of 15-minute SMART CITIES. Such 'goals' of course, are based on the climate change fraud as an excuse for bringing everything under world government control. See our CLIMATE CHANGE HOAX page that will be released in a future Series, for proof it's a con.**

The AMO has set up subsidiary corporations to 'work' with municipal corporations in advancing the UN's goals ... and yes, the taxpayer is paying for the set-up. One is ROMA.

## About ROMA

**The Rural Ontario Municipal Association (ROMA) is the rural voice of the Association of Municipalities of Ontario (AMO). The Association is an integral part of AMO and a number of its Executive Members serve on the AMO Board of Directors.**

**Policy, research and advocacy activities are undertaken by ROMA through AMO (archived here)** ROMA represents rural communities through its policy and advocacy and includes resources. ROMA financial statements are provided by a third party and are not AODA compliant. AODA stands for *Accessibility for Ontarians with Disabilities Act, 2005*.

Guess **who paid for the trip to Toronto** (article archived here) for ROMA's annual conference on January 15, 2024, taken by over 1600 municipal officials from over 300 Ontario municipalities? YOU!

Seems that it's not good enough to have a Zoom conference, even though that's good enough for the Courts that hold trials and all sorts of proceedings on Zoom.

**\*\*Note:** this is yet another PPP arrangement, masquerading as 'government', that is entirely unelected and writing policy and advocating (read: dictating) UN goals to RURAL elected officials that actually work for the PPP running their municipality.

**\*\*Note:** the interlocking directorship where the same people are sitting on the corporate board of both AMO and ROMA. This is gang warfare against the people who actually think their elected officials are working in their best interests.

**So, why are private corporations writing policy for our local governments again?? Because the UN's PPP is the local government and AMO and other NGOs write the policy and run the people by the nose.**

## **Inside the WEF/UN world (global) government system**

- ✓ **CANADA is a signatory to the United Nations Charter and was therefore categorized as a UN MEMBER**
- ✓ **The PROVINCES became sub-national MEMBER STATES, even though they were fully sovereign states since 1931 and did not**

individually sign on to the UN Charter. (See our CONSTITUTION-CHARTER FRAUD page in Series #3)

- ✓ The Local/Municipal governments became private corporate bodies, termed UN CITY STATES, and municipalities were all gathered into UN Regions, with a Regional Government that runs all municipalities under the pretext of providing services to the municipal governments. But, the UN Regions, run by Regional Governments have actually fully evolved through the use of Public-Private Partnerships (PPPs), into fully-private corporations masquerading as elected bodies.

### WEF/UN Crisis to Make People Want World Government

People don't want change unless there is a crisis and they are led to believe they need someone to 'save' them from impending doom. They would not want an unelected World Government unless they could be convinced that only such an entity could possibly save and protect them from some coming disaster OR they are bribed and paid to want to advance that World Government.

To sell the idea the World Government is desperately needed, the UN fabricated and promoted a global problem that they also claimed nations couldn't handle on their own.

Enter the UNs *theory* of "man-made climate change", complete with the solution described in vague fictional language that includes the terms "sustainable development" and Green New Deal, for starters. **Note:** Must read this in conjunction with the CLIMATE CHANGE FRAUD page.

They had a test run for the climate change lockdowns and erosion of human rights and freedoms ... that was called COVID pandemic. **Note:** Must read this in conjunction with the COVID-PCR FRAUD page.

**CO2 (Carbon Dioxide), which anyone who remembers their elementary school lessons knows, is ESSENTIAL TO ALL LIFE,** but for those who they knew would not think things through, the UN blamed this LIFE-giving gas on global warming. The solution of course, was that we all had to go green, give up our way of life entirely, turn over all money as though that would have some impact on climate and weather.

**ALL OF THE THEORY and NARRATIVE** was based on UN science, just as was all the theory, narrative, computer modelling in the COVID scam based on the UN's 'science'.

**The UN's science of course has been proven a grand scientific fraud that had been funded by the UN and was therefore biased, manipulated and a gross misrepresentation of true scientific facts.**

**Meanwhile thousands of REAL scientists were calling their narrative a complete fraud and lie, but mainstream media made sure you heard from UN shills like David Suzuki, and not real scientists.**

**Nations were bribed to 'partner' with this, and their 'leaders' were offered a lot of money to do so.**

**Fact is that no one gets money from the UN/WEF; the UN gets billions from countries like Canada to advance all its crimes under the pretext of doing 'good'. The money is stolen by the UN MEMBER nations from their people and laundered through various 'programs' to the WEF/UN World Government.**

**The UN's non-governmental corporate organizations (NGOs) were then asked to *partner* with national governments in this fake endeavor. Wealth of the sovereign nations would be funnelled to the UN's world government and no one would be the wiser. This is the UN public-private partnership (PPPs) scheme that is operating at all levels of Canadian government: federal, provincial and municipal. Learn more about the UN's PPPs from our PUBLIC-PRIVATE PARTNERSHIP FRAUD page in Series #1.**

#### **Trojan-horse UN Charter – emotional blackmail at the local level**

**Immediately after CANADA the corporation, agreed to abide the corporate UN CHARTER, instruction guides were sent to every city and town recommending (read, 'imposing') a "Comprehensive Blueprint for Global Actions" to help residents "contribute" to nationally agreed upon Sustainable Development Goals (SDGs), all to save the planet from a non-existent climate crisis, whether or not the people consented.**

**The UN emotional blackmail sounds like this:**

***'we all have a responsibility to protect Mother Earth from thoughtless humans that scratch Her surface and burn Her fossil fuels.'***

**UN MEMBERS agree:**

**'Humans are a Cancer', 'Industrialized Nations are BAD!' ... We need Global Government... AND Human Settlements! ~ Maurice Strong – Canada's 'Oil for Food' crime boss (see the TREASON page in Series #3).**

## **The Legal Fraud Tools Created by the UN NGOs, and served up by the UN PPPs**

**Comparison of the *Municipal Act, 1887*, the *Municipal Affairs Act, 1990*, and the present *Municipal Act, 2001* (all framed by the UN's NGO called Federation of Canadian Municipalities (FCM))**

Get the historical J.L. Little 1979 article 'Colonization and Municipal Reform in Canada East' by accessing our [archived copy](#).

**Municipal government in Ontario traces its origin to the recommendations in the report of Lord Durham (1839); the *District Councils Act* of 1841 was the first measure of local self-government in the province.**

**The *Municipal Act, 1849* provided for the incorporation of local municipalities.**

**By 1868, the municipal corporations of the province comprised 36 counties, 399 townships, and 104 cities, towns and villages.**

**The law respecting municipal institutions in Ontario was revised in 1913 by the *Municipal Act* (3-4 Geo. V, c. 43), and is included in the Revised Statutes of Ontario 1914 as chapter 192. It has been further amended by Acts of 1914 (4 Geo. V, c. 33), 1915 (5 Geo. V, c. 34) and 1916 (6 Geo. V, c. 39). Under these Acts the local municipalities of the province consist of townships, villages, towns, counties and cities. The townships consist of an area varying in extent from six to ten miles square.**

**First, lets look at each legislative tool (weapon), individually, that is most important to us today:**

- 1. The *Municipal Corporations Act, 1849* is the first to provide for the incorporation of local municipalities in Ontario. Councillors had very little power. This 1849 Act is available through the University of Toronto Press, [here](#) (archived here). This Act was**

amended by [Municipal corporations law amendment bill](#) ([archived here](#)) (Upper Canada).

The important thing is that local governments of ORGANIZED TERRITORIES (counties, townships, cities, towns, villages) were now structured as for-profit businesses, swearing oaths to Her Majesty (sole corporation/CROWN). And they started to impose and collect taxes, but apparently had a hard time pursuing the taxpayers of the day.

The first page of this Act is here. The rest is behind a University of Toronto Archive paywall. A complete October 2018 dissertation on this document is [here](#) ([archived here](#)).

**2. *Municipal Act, 1887 together with The Municipal Amendment Act* ([archived here](#)) [emphasis ours]**

*HER MAJESTY, by and with the advice and consent of the Legislative Assembly of the Province of Ontario enacts as follows :*

***PRELIMINARY,***

- 1. This Act may be cited as "The Municipal Act." 46 V. c. 18, s. 1.***

***TITLE L—INCORPORATION.—***

***3. The inhabitants of every county, city, town, village, Existing township, union of counties, and union of townships incorporated at the time this Act takes effect, shall continue to be a body corporate, with the municipal boundaries of every corporation respectively then established.***

***4. The head and members of the council, and the officers, Heads, officers, by-laws, contracts, property, assets and liabilities of every municipal corporation, when this Act takes effect, shall be deemed the head and members of the council, and the officers, by-laws, contracts, property, assets and liabilities of such corporation, as continued under and subject to the provisions of this Act.***

***334. No business shall be proceeded with of the council, until the declarations of office and qualifications administered to all the members who present themselves to take the same.***

***335. The members elect of every council, being at least a majority of the whole number of the council when full, meeting after the yearly elections, and after making the declarations of***

*office and qualification when required to be taken, organize themselves as a council by electing one of themselves to be warden.*

Features of the *Municipal Act, 1887* of importance to us today:

- All inhabitants of an area were rounded up into a corporation.
- The elected officials and all staff became the staff of the corporation.
- No elected official took an oath of allegiance to the electorate. Only the voters took an oath in order to vote. (section 102-106)
- All elected officials, including Mayors and Councillors, and appointed officials such as auditors, treasurers, Deputy Clerk had to sign and declare they will faithfully complete the duties of their corporate 'office', etc. (sections 224, 270-277)
- The Head of Council was the Chief Executive Officer (CEO) of the municipal corporation. So, the elected Mayor became an employee called the CEO of the new corporation. (section 244)
- No business proceeded with at the first meeting of the council, until the declarations of office and qualifications are administered to all the members who present themselves to take the same.
- There is no reference whatever to the power and authority of the municipal corporation to impose property taxes on any property, let alone primary residences and farms. Over the years, the public 'presumed' they could be taxed, not realizing it was a private corporation that was extorting them.

**3. [Municipal Affairs Act, 1990, RSO 1990, c M.45](#)** (also cited as *Municipal Act, 1990*)

**Note:** the entire corporation CANADA was transferred to the control of the UN in 1985, 5 years prior. See the evidence on our UN INVASION and CONSTITUTION-CHARTER FRAUD pages.

**Note:** 5 years after the 1985 take-over of all governance of the Canadian landmass, this new Act was installed as the first step to fully privatize the locality as a private for-profit enterprise.

**Section 7 – the inhabitants of municipalities are body corporates, that is, collected together, the inhabitants and their**

properties were the infrastructure of the corporation of the municipality, continued from 1888 Act.

**Section 8 – Name of the Body Corporate is the name of the locality: if the City name is Ottawa, or town name is Kincardine, the name of the Corporation becomes The Corporation of the CITY of Ottawa, and The Corporation of the TOWN of Kincardine.**

**Section 9 – Council was to exercise corporate powers, as a board of directors would exercise power over the corporation in any corporation.**

**Section 10 – Definition of inhabitant: means a permanent or temporary resident having a permanent dwelling within the locality.**

**Section 19.(3), 19.(5) and 19.(6) – all it takes is 75 people to petition the province to create a for-profit corporation out of their township, country, city, town, or village.**

**Sections 25.1 - 25.4 -- allows for the RESTRUCTURING of municipalities from trustee/service providers to public-private partnerships with private corporations, the first step to turning the entire locality over to full private corporation control.**

**Section 29.(8) – the titles adopted by the corporation masquerading as a legitimate municipality:**

**Head of Council = Mayor = CEO**

**Other elected members = Councillors**

**Section 49.(1) – All elected individuals must sign a Declaration of Office, in the corporate municipality. Staff of the corporation are employees. The Declaration of Office means the signer holds an office in the corporation and promises to be faithful to the municipal corporation, such as The Corporation of the City of Ottawa. There is NO MENTION of being loyal or servant to the people of the locality.**

**Section 69.(1) The Warden, Mayor, Reeve of a County, town or city, village respectively, is the Head and CEO of the Corporation. This means the publicly-elected Mayor now works for the corporation as the CEO.**

**Section 72 – Council may appoint a Chief Administrative Office (CAO) to provide administrative services to its corporation the municipal corporation known as The Corporation of the City of**

... .

**Section 73.(1) Council must appoint the Clerk who is an employee of the corporation.**

**Section 73.(2) Council may appoint a Deputy Clerk of the corporation**

**Section 77 – Council that declared itself to work for the corporation, appoints the Treasurer, the Deputy Treasurer.**

**Section 94 – Duties of Officers Respecting Oaths & Declarations**

**Section 94.(1) EVERY council, trustee, elected public official **MUST make and subscribe a Declaration of Office (Form 3) and an Oath of Allegiance (Form 1)****

**Note: the requirement they sign an Oath of Allegiance as well as a Declaration they are working for the private corporate interests.**

**Section 94.(2) EVERY clerk, treasurer, etc, **MUST make and subscribe a Declaration of Office on Form 4****

**Section 94.(3) the auditor **MUST make and subscribe a Declaration of Office on Form 5****

**Section 95.(1) Every qualified person elected to any municipal office must make the Declaration of Office, otherwise they are presumed resigned from the office.**

**Section 101.(1) no by-law can be quashed for unreasonableness!**

**Section 112.1(1) – Council may incorporate one or more corporations as a community economic development corporation, meaning municipal corporations that are subsidiaries themselves of the provincial corporation, can create subsidiary corporations of itself, all at taxpayer expense.**

**Section 113.(4) – defines 'person', to *include* a municipality as defined in the new *Municipal Assessment Act*.**

**\*\*\*\* Alert** to weasel word: DO NOT LET THE WORD 'INCLUDES' fool you. Includes means 'means'. Time to learn about this trick word, by reviewing our [special article](#). **Remember, PERSON means a corporate municipality, NOT a live man or woman.**

**\*\* Note:** Under the property taxation section, there is NO reference to taxation of private property, primary residences, only to commercial, industrial classes of properties, farmland and multi-residential buildings.

**There is NO reference to the municipal corporation having any power or authority to tax.**

**This statute was repealed, spent or not in force since 2003-01-01.**

**This statute was replaced by *Municipal Act*, 2001, c 25, the Act in force in 2424 with some 80 amendments to date.**

### **Consequences of the *Municipal Affairs Act*, 1990:**

- 1. Incorporates natural men and women into a business as a means of creating the business/corporation on the landmass;**
- 2. The corporation's name is arrived at by appropriating the name of the locality. This tricks the people into thinking it is a true government.**
- 3. Is the first step in the 2-steps UN uses to transform a locality from a jurisdiction controlled by the electorate, to one fully privatized. First step is the public-private partnership (PPP) between the locale's elected government and the corporation providing the service and administration to the locality;**
- 4. Defines 'person' by excluding natural men and women;**
- 5. DOES NOT AUTHORIZE A MUNICIPAL CORPORATION TO TAX;**
- 6. Gives the new corporation unlimited powers to masquerade as a governing body, without the knowledge or consent of the natural men and women affected;**
- 7. Creates the *Municipal Assessment Act*, together with the corporation (MPAC) that will eventually use weasel terminology and tactics to end up taxing private residences, just as does businesses and industrial property; corporate MPAC is created to assess property values, but is extraordinarily corrupt, deceptive and tyrannical.**
- 8. Elected official, the Mayor, now has a new title: Head of Council in the governing corporation, signifying he/she is an employee of the corporation. Elected Councillors are employees of the corporation called 'councillors'. They are using old familiar titles to dupe the public as to their true status.**
- 9. Sets-up the start of a public-private partnership (PPP) arrangement, where elected officials will appear to direct the corporation to handle administrative and service tasks, but that will slowly result in a complete take-over of the municipality and**

its natural men and women, now made legal entities called 'inhabitants' by private interests; instead of the corporation working for the Mayor and Councillors, the Mayor and Councillors are now work for the corporation.

10. All elected officials now have to sign and subscribe to a Declaration of Office (in the UN government). If they refuse, they are presumed resigned, even if they were elected.
11. Council (employees of the corporation) can create subsidiary corporations and do; these subsidiaries are set-up at taxpayer expense and eventually will become privately-owned.
12. No by-law can be quashed for unreasonableness, so they can be as ruthless and unlawful as they wish.

4. Municipal Act, 2001, SO 2001, c 25 (amended more than 80 times by 2024)

This is the 2<sup>nd</sup> step in the transfer of a locality and its inhabitants to full private corporate control – goes from public-private partnership arrangements set up in the 1990 version, to full privatization in a process called 'Restructuring'.

Local government restructuring included rewriting our local laws which became the *Municipal Act*, 2001 as required by the UN Municipal Primer 1994, and involved amendments to the *Elections Act*, as well as the Assessment Act.

Mayors are now Global Mayors, making clear they work for the foreign UN Global Government by means of their Declarations of Office. They have formed a criminal gang called the Global Compact of Mayors, complete with their own gang 'Charter', that states clearly they work for the UN World Government and NOT their electorate. The Global Compact of Mayors website is [here](#) ([archived here](#)).

The Global Compact of Mayors was termed 'the biggest collaboration to accelerate climate action', as you can learn [here](#). And [here](#) is explained how the Compact of Mayors comprising 360 Cities, agreed to cut their emissions by 17% by 2030. The Compact even has a 'Guide' dated July 2015, see [here](#).

This legislation concocted by an NGO called the Federation of Canadian Municipalities (FCM) and passed into law at the provincial level by the provincial PPP, tries to make fraud, corruption, treason, intimidation and property theft legal.

This Act facilitates the non-governmental organizations (NGOs) and the UN Public/Private Partnership agreements to transfer all power to the evolved private corporations that slid right into position in every level of government, with the path greased by the usual fools and traitors we thought were working for us as public servants.

This replacement of our elected local governments (and likewise at other levels) with PPP administration under UN control, renders your purportedly elected representatives, merely *de facto* Mayors and Councillors, with brand new titles of Global Mayors, and representatives in-Council, with Declarations of Office (UN Offices) and not oaths to the people.

We discuss Global Mayors and Big City Mayors later.

**\*\*Note: the old terms "Mayor" & "Councillor" are no longer used in the Act... see below, as they tell us in plain English that they have transferred our domestic government to the UN (restructuring is a clever term for 'sold out'): [emphasis ours]**

***Municipal Act, 2001 [UN-Member State Ontario]***

**Part V (171-187) "Municipal restructuring":**

**"... may include the *elimination of a level of municipal government, transfer of municipal powers and responsibilities and changes to municipal representation systems*".**

**\*Translation from legalese to English:**

- (a) Mayor/councillors become employees of the Municipality only (act in the private)
- (b) **Mayors agree to act as Chief Executive Officer (CEO) for the Municipality**, prioritizing corporate interests and profit-taking, instead of their true role as a public office holder responsible to the public and not PPPs and their gang of corporations
- (c) **Mayors agree to act as Head of Council** for the UN PPP system established in international jurisdiction known as UN-CANADA/ONTARIO MEMBER STATE, and when they do, **they are termed 'Head of Council'**.

## **Body corporate**

**Section 4: The inhabitants of every municipality are incorporated as a body corporate, thereby creating a private for-profit corporation, using 'elected officials' that are transformed into corporate employees.**

**Section 8: allows the corporate municipality to interpret the legislation as broadly as it needs in order to be able to conduct its affairs (business and profit-taking), even to the point of giving itself full immunity for doing harm to inhabitants.**

**Section 225: It is the role of the Head of Council to act as chief executive officer (CEO) of the corporate municipality;**

**Section 226.1: The Head of Council is the CEO of the Corporate Municipality with the task of upholding and promoting the purposes of the corporate municipality;**

**Section 227-228: the Clerk does not have to be an employee of the corporate municipality and can delegate some or all of their duties to someone else, such as an outside legal firm**

**Section 229: the corporation appoints its own Chief Administrative Officer (CAO) to run their for-profit business under the pretext it is the government that people thought they had elected**

**Section 232(1): A person shall not take a seat on the council of a municipality [corporation], ... until the person takes the Declaration of Office in the English or French version of the form established by the Minister for that purpose.**

**Section 232(3): a person can sit on two councils in different municipal corporations, which create a form of interlocking directorates.**

**Section 232(6): refusal to sign a Declaration of Office (in UN government) is presumed resignation.**

**Section 233(5): Head of Council in the corporate PPP may be appointed in secret**

**Section 234: The Head of Council is appointed by secret ballot.**

**Section 284.2, Part VI.1, Duties of the Head of Council (aka as Mayor by the public and CEO by the corporation) includes appointing the Chief Administrative Officer (CAO) of the corporation and their staff.**

**Section 239(6): meetings may be closed to the public if it involves procedural matter or for giving directions or instructions to officers, employees or agents of the corporate municipality, local board or committee of either of them or persons retained by or under a contract with the municipality or local board. The corporation gets to run its for-profit affairs in private and secret, including the taking of lands.**

**Section 249(1): Every by-law of a municipality shall be under the seal of the for-profit corporation, and shall be signed by the clerk (who does not have to be an employee of the city or town) and by the Head of Council (previously the elected Mayor in the municipal government, but now employee of the corporation) or presiding officer (another employee of the corporation) at the meeting at which the by-law was passed.**

### **Consequences of the *Municipal Act*, 2001 in plain English:**

- **See a Professor of Law, Osgoode Hall article on the fact that the *Municipal Act*, 2001 legalized corruption, [here](#).**
- **purported elected officials work privately for the corporate UN Member Municipality and the United Nations instead of their constituents!**
- **you and your private property located in the corporate municipality, are transferred to the ownership and control of the corporate UN System**
- **the UN's PPP have handed over our individual sovereign powers to a corporate structure under foreign control.**
- **No longer working for the public sector, Mayors become private employees of the PPP and are now called Head of Council using the title Chief Executive Officer of the PPP to become private Corporation, the Municipality of the City of (your town).**
- **All Head of Council/Mayors are named and incorporated into the UN World Government corporation as Global Mayors.**

The Global Mayors, which we discuss below, then hire staff, named officers or municipal officials, to run the municipality: administrators. They have corporate positions and titles as well – Chief Administrative Officers and corporate CITY Clerks, Treasurers, and so on.

Corporate CITY Chief Administrative Officers (CAOs), Clerks, and the corporate CITY Solicitors all work for the UN and are only there to “administrate” you as though you were a public asset and commodity, and to control your officials. These officers are UN-elected, UN-accountable and UN-available. They work for the corporate Municipality – the corporate creations of the UN System.

The CAOs and the CITY Clerks work for the service corporation that is essentially the ‘partner’ in the created Public/Private Partnership (PPP) with what use to be your local government.

The CAOs/CITY Clerks of this PPP arrangement do the following:

1. **Control the Municipal Election: administrate & monitor elections AND count the votes. They don’t hold regular elections - you vote by proxy for a CITY employee... no joke. *Translation: foreign interference with a public election; defrauding the public.*** 2. **Control the “Oath”: a “Declaration of Office” is issued instead of a public oath.**
2. **Control the purported elected public officials, which under the PPP arrangement were transformed from trustees elected to administer public assets in the best interests of the public, to holder of UN offices, working strictly for the WEF/UN world government. To see the massive municipal election fraud conducted by these CAOs and Clerks, see our ELECTION FRAUD page.**
3. **Control the entire relationship between the electorate and the elected, by silencing public comments, by holding secret meetings, by withholding records from Freedom of Information requests, by taxing and selling off private properties and possessions, all the while physically taking control of, and hording tax money, private property, City Hall infrastructure, and so on. Yet, these are NOT corporate CITY properties, they belong to the taxpayers - you elect them to act as trustees of public assets. Translation: Theft of public assets; negligence - legal duty to disclose, causing loss.**

## **5. [Assessment Act](#), 1990, RSO 1990, c A.31**

## Definitions

### Section 1 (1)

**"person" includes** a corporation, partnership, bridge authority, agent or trustee, and the heirs, executors, administrators or other legal representatives of a person to whom the context can apply according to law;

**\*\*Note:** 'includes' as noted above limits the category to that listed after the word includes.

**\*\*Note:** the definition of 'person', as noted above, uses the term 'includes' and DOES NOT mention natural men and women!

**\*\*Note:** The 'context' referred to in the definition of person can therefore apply ONLY to legal entities listed after the word 'includes', and therefore DOES NOT APPLY to natural men and women, because they are not listed.

### Property classes

Section 7 (2) The classes prescribed by the Minister shall include, but are not restricted to, the following:

1. The *residential* property class.
2. The *multi-residential* property class.
3. The commercial property class.
4. The industrial property class.
5. The pipe line property class.
6. The farm property class.
7. The managed forests property class.

## 6. Municipal Elections Act, 1996, SO 1996, c 32, Sch [emphasis ours]

**Section 53 (1)** The clerk [who is not elected but appointed by the corporation] may declare an emergency if he or she is of the *opinion* that circumstances have arisen that are likely to prevent the election being conducted in accordance with this Act. [no proof of dangerous circumstances necessary, only an 'opinion'.]

(2) On declaring an emergency, the clerk shall make such arrangements as he or she *considers advisable* for the conduct of the election. [only opinion is needed to terrorize inhabitants with false flag 'emergencies']

(3) The arrangements made by the clerk, if they are consistent with the *principles* of this Act, *prevail over*

*anything* in this Act and the regulations made under it.  
[lock down and emergency declaration by opinion of one unelected employee of the corporation suffices]

(4) The emergency continues until the clerk declares that it has ended. [it is ended when the opinion is that it should end]

(5) If made in *good faith* [undefined term], the clerk's declaration of emergency and arrangements shall not be reviewed or set aside on account of unreasonableness or supposed unreasonableness. [no matter how ridiculous, unsupported, and damaging to the inhabitants, the unelected city clerk working for the UN corporation masquerading as municipal government, has the final word on what happens in the locality]

See the section below titled: *Corporate CITY Clerks: all powerful, run the municipalities, elections, and emergency declarations.*

## Usurpation of domestic government and public assets by corporations controlled by the UN

- Localities were set up as **for-profit corporations**;
- Elected officials 'partnered' with for-profit corporations under the pretext that public-private partnerships save money and provide better 'service' to the inhabitants
- Mayors and Councillors became employees of the CORPORATE Municipality, gave up their role in the domestic government as trustees of public assets;
- Mayors and Councillors declared their public offices and trusteeships to be an organ of the CORPORATE Municipality, and therefore CORPORATE CITY property;
- **Having incorporated YOU the inhabitant into the municipality to formally create a CORPORATION, you and your property have been transferred to the control of the UN's partner in the PPP CORPORATION.**
- The reward for conspiring in this transfer of property and wealth, and of public assets to the ownership of a

**CORPORTION using the intermediary step of the PPP, “Mayors” are declared to be GLOBAL MAYORS with international jurisdiction.**

- **This is 100% fraud and treason. It is being complicit in aiding and abetting a foreign political force to invade and remove domestic government.**
- **Everyone who works for the UN or any one of its affiliates or agencies does not pay income tax. See more on the TAXATION FRAUD page in Series #2.**

**We discuss the Declarations of Office below and again, we will discuss the weasel words and terms that hide the fact these traitors are paid by a for-profit corporation, swear to be loyal to a King that has no power over any province since 1931, and claim not to be doing wrong by legalizing fraud, racketeering, intimidation and extortion.**

**You have to admit, it’s pretty slick!**

**But just stop to consider how many traitors are needed to collude to get this done, and how many people in government chose to be wilfully blind, so long as they got their golden handshakes and huge pensions for life after betraying us. Behind all of this are lawyers, all of whom are part of the UN system.**

#### **Municipal Affairs Act, 1990 compared to Municipal Act, 2001**

**Between 1990 and 2001, Lieutenant-Governor-in-Council and UN employee stationed in Ontario, **Elizabeth Dowdeswell, was appointed to oversee the complete overhaul (UN restructuring) of the municipal governments in Ontario, to ensure they became 100% lawless.****

**The *Municipal Act, 2001* came into force on January 1, 2003. It consolidated dozens of acts related to municipal governance or powers and shifted the *Municipal Act* from a prescriptive (limited by law) to a more permissive (be as corrupt as desired) approach by including natural person powers and spheres of jurisdiction to allow municipalities (for-profit corporations) to administer and organize their affairs and deliver services.**

**The review that preceded the enactment represented the first comprehensive review and revision of the original Municipal Act since its passage in 1849, followed by the *Municipal Act, 1888*, discussed above.**

**As part of the former Ontario Premier Dalton McGuinty government’s plan to ensure that local corporations masquerading as local governments have**

the powers and flexibility they need to operate a corporation for-profit and lawlessly, the government launched a review of the *Municipal Act, 2001* in June 2004. The review was undertaken in partnership with Ontario's *corporations* masquerading as local governments and with the UN's NGO, the Association of Municipalities of Ontario (AMO).

Bill 130, the *Municipal Statute Law Amendment Act, 2006*, was introduced in June 2006, and most sections were proclaimed into force on January 1, 2007 ([Proclamation Facts](#)).

**The *Municipal Act, 2001* purportedly recognizes the importance of ongoing consultation with corporate municipalities on matters of mutual interest by recognizing the memorandum of understanding (MOU) between the corporate province and the private for-profit corporation called Association of Municipalities of Ontario (AMO) in the legislation. The MOU is [here](#).**

**What is a Memorandum of Understanding (MOU)?**

A MOU is a formal agreement that outlines plans for a common line of action between two or more parties. The MOU (also known as a letter of intent) is the document where they write down the terms of the agreement. An MOU is often of the first step two parties take before entering into a contract or negotiation together.

In other words, using the public-private partnership two-step dance, the provincial corporation masquerading as provincial government first transfers its responsibility to direct municipal affairs to a *private* corporation (AMO), and taxpayer dollars pay not only for the administration of the locality, but for the new corporation in charge of directing municipalities, by installing NGO's to provide the resources to grease the transfer.

You learned about the AMO-provincial government partnership earlier and how the AMO frames the legislation that has made municipalities lawless, including the *Municipal Act, 2001* and its 80 or so amendments to solidify the privatization of the control of the locality (county, township, city, town, village).

### ***Municipal Act, 2001 (specific legislative weapons as provisions)***

**Section 1(1) Definition of "municipality" means a geographic area whose inhabitants are incorporated**

**Definition of 'person': "person" includes a municipality unless the context otherwise requires;**

**\*\*Note: DO NOT LET THE WORD 'INCLUDES' fool you. Includes means 'means'. Time to learn about this trick word, by going [here](#). Thus, PERSON means a corporate municipality.**

**Restrictions Affecting Municipal Powers -- Specific powers, by-laws under general powers**

**Section 15 (1) -- If a *municipality has power* to pass a by-law under section 9, 10 or 11 and also under a specific provision of this or any other Act, the power conferred by section 9, 10 or 11 is **subject to any procedural requirements, including conditions, approvals and appeals, that apply to the power and any limits on the power** contained in the specific provision.**

**Restrictions, financial matters**

**Section 17 (1) (a) [Sections 9, 10](#) and [11](#) do not authorize a municipality to impose taxes**

**PART V - MUNICIPAL REORGANIZATION: Municipal Restructuring**  
**Section 171 (1) The purposes of sections 172 to 179 are,**

**(c) to facilitate municipal restructuring of a significant nature which may include elimination of a level of municipal government, transfer of municipal powers and responsibilities and changes to municipal representation systems.**

**Section 172 In sections 171 to 186,**

**"resident" means a person who is a permanent resident or a temporary resident having a permanent dwelling within a geographic area and who is a Canadian citizen and is at least 18 years of age;**

**"restructuring" means,**

**(a) annexing part of a municipality to another municipality,**

**(b) annexing a geographic area that does not form part of a municipality to a municipality,**

**(c) amalgamating a municipality with another municipality,**

- (d) separating a local municipality from an upper-tier municipality for municipal purposes,
- (e) joining a local municipality to an upper-tier municipality for municipal purposes,
- (f) dissolving all or part of a municipality, and
- (g) incorporating the inhabitants of a geographic area as a municipality.

**Section 174 (1) At the request of one of the following, the Minister may ... develop a proposal for restructuring municipalities and unorganized territory -- 1. A municipality in a geographic area. 2. At least 75 residents of the unorganized territory in the geographic area.**

#### **Annexation**

**Section 181 (1) The Ontario Land Tribunal may annex a geographic area in unorganized territory to a local municipality upon the application of ... (c) at least 25 residents of the geographic area for which the application is made.**

#### **Change of name**

**Section 187 (1) Without limiting sections 9, 10 and 11, those sections authorize a municipality to change its name so long as the new name is not the same as the name of another municipality.**

### **PART VIII -- MUNICIPAL TAXATION – Definitions**

#### **Section 306**

**“assessment” means the assessment for real property made under the Assessment Act according to the last returned assessment roll;**

**“property class” means a class of real property prescribed under the Assessment Act**

**“residential property class” means the residential property class prescribed under the Assessment Act;**

**Section 314 (5) The Minister of Finance may make regulations, prescribing classes of real property for the purposes of clause (1) (a), other than the residential property class, the multi-**

residential property class, the farm property class, the pipe line property class or the managed forests property class;

Power to impose tax, vacant residential units

Section 338.2 (1) -- In addition to taxes imposed under Part VIII, a designated municipality may, by by-law passed in the year to which it relates, impose a tax in the municipality on the assessed value, as determined under the Assessment Act, of vacant units that are classified in the residential property class and that are taxable under that Act for municipal purposes.

## Conclusions Drawn About the UN's Legislative Weapons

### 1. Consequences of the *Municipal Act*, 2001

1. There is **NO DEFINITION OF 'PERSON' that refers to natural men and women.**
2. Natural men and women are defined as 'residents' and inhabitants (legal entities).
3. Natural men and women are forced into a corporation called a municipality, and under the authority of the corporation.
4. **NO AUTHORITY TO TAX is provided anywhere in the Act: A PROCESS IS PROVIDED, BUT NOT THE SPECIFIC AUTHORITY to impose that process** – that because they had to appear to be aligning with the International Covenants of 1976 that ended all forms (including taxation) of men and women.
5. The Act DOES NOT define rateable property for taxation purposes but refers to the *Assessment Act* definitions under which MPAC (Municipal Property Assessment Corporation) operates to establish property values. **THERE IS NO DEFINITION OF RATEABLE PROPERTY.**
6. **THERE IS NO DEFINITION OF RESIDENTIAL PROPERTY, or MULTI-RESIDENTIAL PROPERTY** (the former is private and the latter is rental business/corporation).
7. **The corporation created by forcing natural men and women to associate with the corporation as legal entities (inhabitants), can do business, be RESTRUCTURED and REORGANIZED as can any**

other business, at the whim of the Board of Directors and those influencing the Board of Directors.

## 2. Consequences of the *Assessment Act*, 1990

1. Does NOT include natural men and women in the definition of 'person'.
2. Does NOT define residential property, nor multi-residential property or delineate between a private residence and several residences in a rental building.
3. Does NOT define 'rateable' property.
4. Provides NO authority to rate or value a private residence.
5. The *Assessment Act* CANNOT apply to natural men and women, as it refers only to 'persons' whose definition leaves out all reference to natural men and women.
6. Allows the Municipal Property Assessment Corporation (MPAC) to lie, be secretive, undertake warrantless searches and engage in crimes and violations of human rights, such as hiding and manipulating data to overcharge the middle class and undercharge the upper class.

**Corporate CITY Clerks: all powerful, run the municipalities, elections, emergency declarations**

**Note:** using the COVID pandemic as pretext, most Ontario corporate CITY Clerks ended in-person ballots, hired computer companies to run email-based and telephone-based polls, and authorized the destruction of all polling information to prevent investigations. This ensured the corporation put the 'elected' shills into place that it wanted.

See our ELECTION FRAUD page to be shocked at how you were deprived of your election and vote.

Above, we showed you changes to the *Municipal Elections Act*, 1996 by the UN's NGO. In this section we discuss the power it gives CITY clerks who are employees of the corporation masquerading as local government.

As an example of the power of City Clerks, check our ELECTIONS FRAUD page when it is released in the future, but also [this](#) Office of the City Clerk, City of Ottawa Declaration of Emergency on July 15, 2020. Note that the Declaration had been deleted from the City of Ottawa website, but we retrieved it from the Internet Archive Library.

According to this CITY of Ottawa Clerk's Declaration of Emergency, the Clerk's powers to do so were Section 53 *Municipal Elections Act*, 1996.

The CITY of Ottawa Clerk's reasoning was that:

- an emergency had been declared throughout Ontario pursuant to Order in Council 518/2020 (Ontario Regulation 50/20) on March 17, 2020 in accordance with Section 7.0.1 of the *Emergency Management and Civil Protection Act*, 1990. The reason for the Ontario-wide emergency was purportedly due to COVID-19. However, in January 2024, the court ruled that the Trudeau regime's *Emergency Act* lockdowns were wholly unjustified.
- an emergency had also been declared throughout the City of Ottawa by the Mayor of the City of Ottawa on March 23, 2020 in accordance with the *Emergency Management and Civil Protection Act*. The [reason was the trucker protests](#) in downtown Ottawa, and NOT COVID-19.

However, the same day, [CTV News contradicted the reason](#) given by the Mayor and stated that it was over the COVID-19 pandemic. Obviously, the UN could not co-ordinate their municipal skills with their media skills well enough, and it was clear there was no reason for a declaration of emergency and lockdown.

And here, another news outlet states the City of Ottawa [lockdown was to prevent supplies from getting through](#) to the Trucker Convoy!

- A corporate CITY CLERK could exercise their power under Section 12 of the *Municipal Elections Act*, 1996 that provides that the CITY Clerk is responsible for the conduct of the municipal election and may provide for any matter or procedure that *in the City Clerk's opinion is necessary or desirable* for conduct of the election. The election used as excuse was merely a by-election that could have waited until the end of the lockdown, but the reason for the declaration by the CITY Clerk dated July 15, 2020, was neither the trucker protest nor the COVID-19, just the *possibility* of a by-election being interrupted.
- Why did the corporation of the Province of Ontario, and the corporation of the CITY of Ottawa, and separately, the corporate employee CITY Clerk, all lockdown the UN-Ottawa city state?

**Because the UN owns and controls the subsidiary Corporation of the CITY of Ottawa and wanted the lockdowns as part of imposing its agenda to end all private property ownership and travel.**

**Then we have the City of Guelph, Ontario where the Mayor (Head of Council and CEO of the ruling corporation) **locked down the City for different reasons**, as seen [here](#), which is their Declaration of Emergency Form dated March 26, 2020.**

**The *Emergency Management and Civil Protection Act*, R.S.O. 1999, Chapter E.9, Section 4(1) gave him the power and authority to declare an emergency in part or all of his jurisdiction, because, wait for it ... COVID-19 was a dangerous disease endangering his community. No independent evidence, no science, just parroting the desired narrative.**

**As you can learn from the COVID-PCR FRAUD page. COVID-19 was merely the seasonal flu renamed, was not dangerous to most people, especially children and there was no justification for any lockdown or declaration of emergency in his jurisdiction. The purported COVID-19 was an excuse to bring out the COVID vaccines weaponized to kill and injure tens of millions. (See the GENOCIDE page.) At the time of this writing, 17 million people have been confirmed as having been killed by the mRNA COVID injections, with another 60 million suffering catastrophic illnesses.**

**So why did he declare an emergency when no danger was present? Was he obligated to do as the corporate government wanted?**

**Because he is a Global Mayor and the Global Mayor serves the UN Global Government, and the UN Global Government wanted the world locked down to destroy sovereign nations and their economies.**

**Under the UN CITY STATE arrangement, Peterborough County holds planning responsibility for Douro-Dummer. They also hold the Chair position for the NGO named 'Sustainable Peterborough', which is partnered with ICLEI.**

**No doubt by this point you can see that public-private partnerships proliferate more copiously than rabbits.**

**Back to Peterborough's PPPs ruling the nest:**

**Official Plans concepts installed by UN Planner Armies deployed in every Ontario municipality have been forced down the throats of residents by outsiders to the area, and worse, we have seen how municipal lawyers push**

**Official Plans as 'law' in many court cases, when they are nothing of the sort.**

**An Official Plan for a community should depend on engagement by those who live and work in that area, not on the decisions of UN-shills parachuted into a community to destroy it using UN tactics such as Official Plans.**

According to a [report on the take-over of Peterborough](#) and a small community called Douro-Drummer, an Official Plan was pushed through during COVID, with much of the growth data being skewed during the emergency measures and no one able to 'challenge' the CITY Clerk on the manipulations and misrepresentations of the facts.

**It gets worse as the report progresses: This is EXTREMELY common across Ontario – a Martina Chait-Hartwig (Acting Clerk and employee of the PPP) was not from the area, nor was she elected, yet she took on a pivotal role in decision-making for the Official Plan, with nearly zero community engagement (other than posting online).**

**Parachuting in corporate shills to do the dirty work in a community or to a group, is a well-worn UN tactic. In fact, this was done to destroy the entire holistic community in Ontario from 2007 to 2017, where lawyers disguised as 'regulatory healthcare officials' would impose and then enforce all sorts of absurd regulations and policies on front-line holistic practitioners.**

## **Strong CITY Mayors and Ontario Big CITY Mayors Given Unlimited Powers by Provincial PPPs, as recommended by UN NGOs**

**From the Ontario Municipalities of Ontario's website about [Strong Mayors](#) created by the UN's corporate provincial PPP: [emphasis ours]**

- **The Government of Ontario has made *significant changes to the municipal government framework, powers and processes* in the last few years.**
- **The *special powers and duties* for heads of council (Mayors, Wardens, Reeves) are voluntary and subject to certain exceptions. They include powers such as:**

- **Creating council committees and appointing chairs and vice-chairs**
- **Hiring and firing the CAO**
- **Hiring the heads of certain departments and reorganizing administrative structures**
- **Proposing the municipal budget for council approval, with veto powers that require a 2/3 council vote to override**
- **Vetoing certain by-laws that the head of council believes may interfere with provincial priorities [priorities such as imposing 15-minute SMART CITIES, digit ID, sustainable development goals including ending private property ownership]**
- **Bringing forward items for council consideration that could advance a provincial priority [now municipal officials are working strictly for UN-controlled provincial priorities, whereas, their priority is to serve their constituents]**
- **AMO has highlighted concerns with two elements of the strong-mayor framework:**
  - **Majority Rule: Changes to the *Municipal Act* that enable mayors to make law with the support of just one third of Council runs counter to fundamental democratic principles, [by leaving the other 2/3rds voted in by the electorate without any voice]**
  - **Public Administration: Powers that enable the head of Council to hire and fire the heads of departments and reorganize municipal administration are at odds with good corporate governance practice. [such reorganization has only 1/3 of voter support!]**
- **These elements are now law, and municipalities can be counted on to use these powers responsibly and in the public interest. (Really? Can be counted on???)**
- **Strong-mayor powers were extended to 28 of Ontario's fastest growing communities in July 2023.**

**Note THE MOVE TO REFERRING TO MAYORS AS HEAD OF COUNCIL!**

**How does a Mayor (Head of Council working for the private corporation as CEO) get 'Strong Mayor' powers?**

**From [Ontario's Big City Mayors \(OBCM\)](#) website, an NGO group consisting of 29 mayors leading cities with populations of 100,000 or**

more ,we learn that mayors were given extremely dangerous powers:  
[emphasis ours]

- OBCM provides a voice for big city mayors in policy debates that impact Ontario cities. Through policy development, advocacy, discussion and partnerships, Ontario's Big City Mayors support strong and effective cities.
- OBCM achieves this by:
  - Forging relationships with the federal and provincial governments, municipal organizations such as the Association of Municipalities of Ontario and the Federation of Canadian Municipalities, and other stakeholders (public-private partnerships, PPPs)
  - Meeting with government ministers and representatives to voice the perspective of big cities and work together to achieve shared goals [the only real goal is advancing UN Agenda 21 and 2030's Sustainable Development Goals (SDG) to end private property ownership and impose 15-minute SMART CITIES, by replacing local government with PPPs]
  - Taking public positions on key issues and opportunities that affect big cities [means harnesses uninformed public to force bad decisions that benefit only the UN's PPPs and NGOs]
  - Sharing information, data, research, and resources among members and with other governments, stakeholders, and organizations [means that everyone and everything but the taxpayer and resident is heard]
  - Participating in government policy consultation processes as the voice of Ontario's big cities [where taxpayer/resident participation is prohibited]

With this kind of 'power' -- where the ruling corporation's Head of Council (Mayor and CEO) can do as they wish just about any time -- you can understand how WEF-shill, former Mayor of Toronto, John Tory got to make Toronto a 'sanctuary' city, which is now a shadow of its former self, just as the WEF/UN wanted.

Since morally and ethically bankrupt Mayor of Brampton, Patrick Brown rules, you can understand why he was so thrilled to lockdown the entire city, while he played hockey in an arena open only for him and his

friends. Such power in the hands of a Mayor like this, who's real job is working for the PPP as CEO, is downright dangerous.

## **United Nations Global Mayors (GCoM)**

Since 1992, Canadians don't have Mayors, except in name only.

- they are now United Nations' Global Mayors; holders of office in the UN's world government. The World Government is actually owned by Rothschilds, et al, the UN being its administrator;
- Global Mayors are now working as a criminal gang called the Compact of Global Mayors, with their own logo, own Charter and under full control of the UN World Government;
- thousands of Global Mayors have sworn a Covenant to maximize both local and global perspectives, called Global Covenant of Mayors (GCoM) and have established UN Regional/National Covenants, which serve as local chapters of the broader GCoM world government alliance;
- all Canadian Mayors are a front for the corporations running them behind the scenes at City Hall, where the corporations have taken over all assets and provide all services, hiding surpluses in the process;
- the traitor Mayors signed Canadians onto the UN Global Government system without their knowledge or consent, just as the imposter government did when it used the various *Municipal Acts* to incorporate us into their municipal corporation;
- the Global Mayors are setting up the UN 15-Minute SMART CITIES, imposing Sustainable Development Goals, allowing the UN's Municipal Planner Army to use *de facto* policies and 'zones' to minimize and eventually prevent all use of a private property by the rightful owner. We discuss the open-air prisons called 15-minute SMART Cities on our MUNICIPAL FRAUD page provided in this Series #1; and
- Every Global Mayor was ordered to sign a Local Emergency Declaration Form like the one seen [here](#) that was still on the City of Guelph, Ontario website on March 1, 2024. The Declaration of Emergency signed by Mayor Jim Watson who

was a member and speaker at the WEF conferences, was deleted from the city website, but is available as an image.

### Declaration of Emergency in the City of Ottawa

WHEREAS the outbreak of a communicable disease, namely COVID-19 coronavirus disease, constitutes a danger of major proportions that could result in serious harm to residents of the City of Ottawa; and

WHEREAS as of 2:15 pm on March 24, 2020, Ottawa Public Health was investigating 25 confirmed cases and 13 indeterminate cases in the City of Ottawa and the Medical Officer of Health has cautioned that the number of people infected with COVID-19 in the city is likely to be greater; and

WHEREAS the Medical Officer of Health has advised residents to practice social distancing to help slow the spread of novel coronavirus; and

WHEREAS on March 17, 2020, the Government of Ontario made an order declaring an emergency under s 7.0.1(1) of the *Emergency Management and Civil Protection Act* and issued associated orders requiring certain establishments legally be required to close immediately; and

WHEREAS on March 23, 2020 the Government of Ontario further announced that all non-essential businesses were required to close throughout Ontario by March 24, 11:59 p.m.; and

WHEREAS the risk of seasonal flooding may further impact the City's ability to focus its resources on addressing the COVID-19 response; and

AND WHEREAS the criteria set out in subsection 4(1) of the *Emergency Management and Civil Protection Act*, R.S.O. 1990, chapter E.9 (the "Act") have been satisfied;

NOW THEREFORE, an emergency is hereby declared pursuant to subsection 4(1) of the Act in the whole of the City of Ottawa, in the Province of Ontario.

Jim Watson

Mayor of the City of Ottawa

Date: March 25, 2020

**The weasel (legalese) words in the Declarations of Emergency are instructive in helping one to understand the crime: "may declare, make orders, emergency plan of the "municipality, inhabitants," within the "'jurisdiction' of the City..." (all undefined terms)**

**These Emergency Declarations are evidence of:**

- 1. a *de facto* 'Head of Council' /UN Mayor signed**
- 2. a foreign UN government document prepared by a UN non-governmental organization (NGO) called the AMO**
- 3. that was issued on *private corporate* letterhead.**

**These Global Mayors are acting in 3 separate legal capacities simultaneously, for 3 different offices, with no legitimate signing authority for any of them:**

- ✓ **Public elected official: Mayor**
- ✓ **Private non-elected: CEO of the CITY**
- ✓ **Foreign Corporate Government (International): Head of Council for UN PPP**

**The Chief Administrative Officer (CAO) appointed by the Global Mayor, also signs off for the corporate City and the UN's PPP, and works strictly for the corporation and NOT the residents;**

**The Clerk in Ottawa, an appointee of the Head of Council/Mayor who is wearing 3 hats simultaneously, signs off on a Declaration of Emergency while also wearing three hats:**

- ✓ **Appointee of the Mayor in public office**
- ✓ **Appointee of the Mayor as Head of Council of the PPP corporation**
- ✓ **Appointee of the Mayor as CEO of the private corporation**
- ✓ **Appointee of the Global Mayor in the UN Government, which is also appointed the last word on running the Municipal elections.**

### **Conclusion:**

- ✓ **ALL COVID restrictions were implemented using only corporate CITY BY-LAWS, as framed by the non-governmental organization (NGO) named FCM, just as ordered by the PROVINCIAL corporate PPP, which is the subsidiary of the corporate UN MEMBER STATE, Ontario, which is in turn a subsidiary of the corporate UN MEMBER NATION, which in turn is a subsidiary of the corporate UN Global Government – ALL OF WHICH ARE *de facto* AND IMPOSTERS masquerading as elected government.**
- ✓ **ANYTHING can be implemented in your town with ONLY TWO signatures:**

**(1) The corporate Head of Council/Mayor and**

**(2) the CAO, which is the corporate administrator of the PPP appointed by the PPP's Head of Council to run the PPPs administrative and service affairs.**

- ✓ **All UN CITY STATES operate the same way, with the same misleading titles of Head of Council/Mayor and Councillor and misleading name of the Corporation as The Corporation of the CITY of .... to ensure the public continues to believe the decision-makers were elected in their locality to run the public and not private business of the electorate, when in fact they are all office holders in the *private* corporations running the locality and paid salaries by the UN.**

## **How the UN's PPPs work to invade a landmass without firing a shot**

### **The Template:**

**EVERY PIECE OF LEGISLATION SINCE 1985 is written by a UN corporate non-governmental organization (NGO), and enacted into 'law' by a private corporation that is either still in the public-private partnership stage OR has already gone fully private (such as with Teranet, the corporation who owns and controls all Ontario land titles and management systems and OMERS that runs the pension plan system – see our PROPERTY THEFT and PENSION FRAUD pages in Series #2).**

**Every level of what you think is our *de jure* government, is actually a *de facto* government, that moves money between the other levels, such as when the provincial government is claiming to transfer grants to the municipalities.**

**IN FACT, WHAT IS HAPPENING, is that one corporate PPP (or if already private, a PRIVATE CORPORATION MASQUERADING AS GOVERNMENT), is transferring grants to a municipal PPP, or if already fully privatized, to a private corporation using the same name as the name of the locality.**

**All along, the PPP disguises were very successful in keeping you believing that they are legitimate government, and that it's the elected officials who are making the decisions. ONLY the reverse is true.**

**Every time you see or hear the term 'partner' you know that it's a corporate arrangement between the corporate government and a private**

**corporation. There are thousands of such partnerships, that effectively transfer government responsibilities and public assets to private control.**

Here's an example where you might not at first realize it is a PPP arrangement. We underline, for your convenience, where the partnership is evidenced and you can confirm this by checking the linked websites.

The provincial corporate PPP controls the transfer of provincial grants to municipal governments. One such grant is called [Ontario Municipal Partnership Fund \(OMPF\)](#).

**IF the provincial government was not a private corporation, but was in reality a *de jure* government, it would be making a grant to a local municipality that it created, rather than to a partner at the local level. The partner it is 'granting to is the corporate municipal PPP.**

Now, the corporate provincial PPP making these grants, 'partners' with the [Municipal Finance Officers Association of Ontario \(MFOA\)](#), a private corporate NGO, that not only administers these billions in grants between the provincial PPP and the local PPP corporations, but it controls the public assets and trains all municipal financial officials through specific 'training and resources' to horde away billions in 'surplus'.

The [MFOA is SPONSORED](#) by many other corporations that are listed at the bottom of their website and those include CIBC and MPAC, which are found by using the tiny dots at the bottom of the home page to see the many 'partners'.

One of the 'partnerships' between municipal PPPs and private interests arranged by the UN's MFOA, is called the [CHUMS Financing Corporation](#), that has access to retirement funds and other public assets.

The CHUMS Financing Corporation, it is claimed, was established in a highly professional manner. **A board of directors, composed of senior municipal finance officials, (which are ALL private corporation staff and not working for the public, but for their employer) was appointed to supervise the overall direction of the corporation.** A leading legal firm (another corporation) set up the corporation and also developed the process to enable municipalities (private corporations) to participate in CHUMS' mutual fund program.

In fact, a total package was prepared for potential investors providing sample reports to council, sample authorization by-laws and the agency agreement to join the CHUMS fund.

The agency agreement is between the CHUMS Financing Corporation and the investing municipality and is the governing document relating to investments in the fund.

It is also claimed that a reputable investment management firm was retained to manage the mutual fund, and a leading Canadian chartered bank was appointed to provide custodial and record-keeping services and act as an interface with the municipalities investing in the fund.

**Not a single taxpayer we know has received a dividend cheque, and few know that through creative 'accounting' billions of the profits from this private investment are hidden in 'surpluses'.**

In 1998 the province of Ontario downloaded Social Services management to corporate municipalities that are now run by PPP arrangements or fully privatized. Ontario is the only jurisdiction in Canada where municipal levels of government hold responsibility for social services.

**This means that private corporations are now in charge of social services for a profit, and for that they created at least 3 subsidiaries: [Ontario Municipal Social Services Association \(OMSSA\)](#) that 'helps' Ontario's Consolidated Municipal Service Managers (CMSMs) and District Social Services Administration Boards (DSSABs).**

How many people does it take to 'screw in a lightbulb' again???

**More importantly, what is the chance that social issues, poverty and homelessness will ever be resolved when resolving them will put some 4-5 private for-profit corporations out of business?**

It's all paper-pushing by bureaucrats and the people they are supposed to serve get little to nothing of the funding, which is why we have an epidemic of homelessness and poverty in Ontario, while the 'government' grows in size as though on steroids.

Consider how many levels of bureaucracy are involved in all these corporations – all of which peel off their share as the taxpayer funds move from one PPP to the next. We've only given you two of thousands of instances.

#### **FACTS:**

- ✓ The PPPs are a cover, while in the background the stage is set, at taxpayer expense, to transfer all assets, even staff, computers,

databases, for free to private corporations owned by the very wealthy. Most of this has been accomplished in all Ontario municipalities.

- ✓ The PPPs operate as *de facto* governments, pretending they have authorization, but in fact, all they have is UN 'law'.
- ✓ It is the way the wealthy hijacked our lawful system of government, starting in 1888 with the British and now, since 1985, with the United Nations World Government (aka Global Government).
- ✓ How do you know this is happening in your area?

UN Members (and all funding recipients) use the trademarked SDG Logos and promote as their policy and goals, Sustainable Development Goals (SDGs), which include installing 15-minute SMART CITIES. See hundreds of styles and versions of the SDG logo, [here](#). Here are just two that tell you to your face that the organization is working toward your demise.

## 17 PARTNERSHIPS FOR THE GOALS

- ✓ PPP's use secret meetings, silence all dissent, and refer to those with the facts as conspiracy theorists to defraud the public, and draft mandates that appear to be by-laws, but which are nothing of the sort except in name.
- ✓ This way, the PPP by-laws promoted as municipal by-laws, abridge all private property rights and even bodily autonomy.

- ✓ Consider how municipal PPPs locked down residents using only local municipal by-laws.
- ✓ Not only does no PPP have the lawful right and authority to impose anything on a man or woman, but no public official has the authority to transfer you and your property to foreign corporate control.

Without consenting to being traitors and signing a corporate agreement with the UN through their PPPs, titled a Declaration of Office [in the UN government], elected officials are not and cannot be parties to this international agreement.

They have to use fraud, misrepresentation and while one might think they are simply incompetent, no one can be that incompetent.

**But, fraud vitiates (makes null and void) all agreements, undertakings and contracts forever. And everything done by the WEF/UN is done by contracts with Canada's corporate governments and therefore void from the outset.**

(source: P.O.G.G. Primer by Shelagh McFarlane, Ontario) **Note:** Since 1985, Canada is not just a UN Member State, but a region of the World Government known as UN-CANADA.

## CANADA under the PPP Global Government System

The new *de facto UN Global Government System* is a corporate (veil) structure set up like *franchises* – think Burger King. So, instead of being “governed”, we get “SERVICED”. Policies are set at the PPP top level and downloaded to the ones below... *like this*:

| Government (formerly) | PPP                       | NGO Collection Agency                                                                 |
|-----------------------|---------------------------|---------------------------------------------------------------------------------------|
| CANADA                | UN MEMBER STATE           |  |
| ONTARIO               | Sub-national MEMBER STATE |  |
| LOCAL/MUNICIPAL       | CITY STATE                |  |

**To dive a bit deeper into the ‘in-Council’ term, know that this is a term that showed up after the 1985 UN take-over, and started into use at increasing speed.**

**When the province of Ontario was a subsidiary corporation of the CROWN (the British, and then the Vatican), the Lieutenant-Governor was simply**

that, Lieutenant Governor, doing the Queen's bidding and representing her in her colony (subsidiary corporation) called the Province of Ontario.

But once the UN took over and colonized Canada in 1985, its PPPs started to take over the governance of the corporate Province of Ontario.

All Lieutenant-Governors of Ontario (L-G) since John Black Aird, an employee of the British CROWN, has been appointed by fictitious Queen Elizabeth II in 1980, have worked to advance the agenda of the World Government.

The L-Gs direct the premiers (Chair, Board of Directors of the provincial corporation), so the premiers assisted in the restructuring of all Ontario municipalities into private corporations, with all staff and elected officials formally transferred to the corporation to work for it.

**L-G John Black Aird (1980-1985) assisted by Premiers Bill Davis, and Frank Miller (UN controlled Canada from 1985).**

**L-G Lincoln Alexander (1985-1991) assisted by Premiers David Peterson, and socialist NDP Bob Rae: saw to the passing of the *Municipal Act*, 1990 that set the stage for the 'restructuring' of government to PPP control.**

**L-G Hilary Weston (1997-2002) assisted by Premier Mike Harris who orchestrated the mass amalgamation of Ontario municipalities and the passing of *Municipal Act*, 2001 that created the fully privatized municipalities where the Act made them lawless, unaccountable, untouchable criminals transferring property and wealth to themselves under the direction of the UN NGOs.**

**L-G [Elizabeth Dowdeswell \(2014-2023\) IN RIGHT OF ONTARIO](#) assisted by Kathleen Wynne and Doug Ford, transferred Canadian Citizens to Global Citizen under the control of the World Government (human trafficking), and locked down the entire province under the colour of law in order to dissolve all human rights. Dowdeswell did this by using the Global Mayors, in their capacity as Head of Council for the private corporations, to declare unjustified Emergencies.**

'IN RIGHT OF' MEANS: A power held as a consequence of another power, or held as a consequence of a relationship.

**Also, she had the corporate CITY Clerks use their powers to change election protocols from in-person ballots to email and telephone balloting only, to destroy all evidence of the corruption of the elections by corrupt computer systems companies such as Dominion Voting Systems owned by the Chinese and globalist George Soros.**

## **Traitor Elizabeth Dowdeswell's job**

**The Lieutenant-Governor-in-Council (Elizabeth Dowdeswell), was appointed by the UN to govern the landmass Ontario, entirely ignoring that in 1931, the province was set free of all colonization.**

**She held various positions in the federal public service during the 1980s, working at one point as assistant deputy minister at Environment Canada with responsibility for the Atmospheric Environment Service and negotiating the Framework Convention on Climate Change.**

**As lieutenant governor, Dowdeswell was the viceregal representative of the Crown in Right of Ontario, which means she held this power as a consequence of another power (UN), or held as a consequence of a relationship (such as with PPP and NGOs controlled by the UN).**

**The Lieutenant-Governor signed a Declaration of Office in the United Nation's World Government, and her new title in Ontario became Lieutenant-Governor-in-Council, acting as a representative 'in Right of Ontario', indicating she was assenting to fraudulent legislation on behalf of the UN, as an employee of the UN and managing the UN's Ontario office as her job duties with the UN required.**

**As L-G of Ontario, Dowdeswell's task on behalf of the UN Global Government, was to**

- 1. Ensure the UN's NGO wrote legislation called the *Municipal Act*, 2001 that she purported to 'assent to' to make law, that**
  - Continued the process of incorporating all inhabitants of a geographical area into a corporation, which then appropriated the name of the city, town, village or area as its own to dupe the public; and**
  - Facilitated the restructuring of the area's normal government into first a corporate Public-Private Partnership (PPP) and finally into a fully-privatized operation, no longer a trust arrangement between the elected officials and the electorate.**
- 2. Transform all Ontario Municipalities first into PPPs, where the Mayor became first a Head of Council in the PPP and then a Global Mayor in the UN World Government, and together with the Councillors signed Declarations of Office in the UN.**
- 3. Gradually transform the corporate PPPs into entirely private, unaccountable for-profit private corporations, with the Mayor and the**

**Councillors that use to work for the public interest and for their constituents, now working for the private corporation as employees with specific duties and titles, such as CEO.**

- 4. Instead of calling them subsidiary corporations of the foreign parent UN, the new titles referred to 'UN Member States' and 'UN Member CITY States'.**
- 5. Under the UN WORLD GOVERNMENT system, corporate municipalities are structured to defraud the public, transfer wealth and property to the elite, and make massive corporate profits. They are not "*de jure* government" nor geographical areas: they are subsidiary corporations masquerading as governments, at most being *de facto*. They use extensive force, extortion, and intimidation.**
- 6. Transfer Canadian Citizens to the control of the UN World Government as 'Global Citizens', an act of human trafficking.**

**Think of it another way: PPPs are government-corporation partnerships, administratively supported in the transition of Canada to WORLD GOVERNMENT by non-governmental organizations (NGOs) controlled by the United Nations (Dowdeswell being its representative in Ontario until 2023), that duped the people into believing they are actually a government.**

**They never will be a government: they are criminal corporations acting in concert as a gigantic cartel, with the criminal Lieutenant-Governor retitled Lieutenant-Governor-in-Council controlling all plays.**

**On September 22, 2022, the Russian Ministry of Foreign Affairs announced the addition of Dowdeswell, alongside other Canadian lieutenant governors, military commanders, academics, and member of boards of directors of NGOs to the country's [list banning entry to Russian territory](#). The list exposes the very interesting list of Canadian traitors working for the WEF/UN Global Government that have been banned by Russia from their lands, as President Putin would not tolerate a single UN hair on his lands.**

**Check our TREASON page in Series #3, to learn how Elizabeth Dowdeswell was moved into the UN office of Lieutenant Governor-in-Council in 2014, to finish 'us off' for the UN Global Government she works for. She won UN awards for trafficking Canadian Citizens to the World Government, where we are all, according to them, incorporated World Citizens. See [here](#) for her biography and the pictures of Dowdeswell receiving UN awards for**

**trafficking Canadians Citizens to the World Government with the knew legal standing of Global Citizen.**

**Justin Trudeau did his transfer from Canadian Citizen to Global Citizen at the federal level and he has his Global Citizen T-Shirt to prove it:**

**After she resigned in November 2023, Dowdeswell was replaced by the 3rd Executive Director of the United Nations Environment Programme, Edith Dumont.**

**Dumont is just another in a long line of UN high-level employees advancing the WEF/UN agenda to end all private property ownership and travel in Ontario, and to install 15-minute SMART CITIES, that will have everyone under surveillance and controlled 24/7.**

### **Restructuring Municipalities means selling our local governments to private interests**

**The control of the governance of Canada was turned over to the United Nations (UN) in 1985. Simply put, one corporation sold out to the bigger corporation. See details on our UN INVASION page in Series #1.**

**Dowdeswell came to power in Ontario to transform the province to a UN subsidiary corporation on behalf of her employer, the United Nations, to set up**

- the UN's public-partnership scheme;
- set-up numerous NGOs to provide the 'guidance and to write the legislation' such as the *Municipal Act*, 2001 needed to slowly boil Ontarian 'frogs' down from sovereign men and women to incorporated entities owned by the corporate municipality they collectively formed without knowing it;
- fully implemented Municipal Restructuring plans established by former Ontario Premier Mike Harris in 1996, a treasonous tactic that included merging municipalities without the required public plebiscite resulting in the reduction of 815 towns, cities, counties and townships down to just 447. Amalgamations happened in Northern Ontario as well.

There are no counties in the north. The typical amalgamation in the north involved the amalgamation of one or two municipalities and annexation of unincorporated territory. Whether or not the inhabitants wanted to be 'incorporated' into the corporation that now controlled the territory, it was done. See about the Municipal Restructuring Plans, [here](#); and

- replaced the *Municipal Act*, 1990 with one written by the UN's NGO, named the Federation of Canadian Municipalities (FCM).

### **The UN System in Action in Canada**

You may wonder why the people committing these crimes and acts of treason seem to be totally at ease and content with 'doing their jobs', as though they will never be held accountable.

It's because

(a) most at the upper levels pay no taxes and

(b) no one can sue them because the UN's legislation after the 1985 take-over of corporate CANADA is in place to ensure this.

See more on our UN INVASION page (Series #1) about how it guarantees protection from prosecution and investigation of all its employees and employees of its affiliates and agencies.

Shelagh McFarlane ran for public office in Guelph, Ontario, where she was able to ask questions of the administration that could not be ignored, since she had to know her responsibilities and duties if elected. (Sadly, she lost in the rigged election). This is from her report, as seen [here](#) at page 19:

Let's look at the CITY Declaration of Office... (beware of weasel words...)

My question to the CITY Solicitor when I ran for Mayor of Guelph:  
 "Is there an Oath of Office for the Mayor BEFORE he takes the oath as Head of Council under the Municipal Act, 2001?"

Christopher Cooper, CITY of GUELPH Solicitor:  
 "Yes, and the Municipal Act, 2001 (the "Act") *sets out* a *prescribed method by way of which* declarations *OR* oaths of office must be taken by the mayor before s/he *assumes* the *role of* head of council. This *requirement* is *outlined* in subsection 232(1) of the Act. A link to the *prescribed form of declaration* is available below."

Question #2: "I don't see the word 'Mayor' in the Municipal Act."

Christopher Cooper: "You are correct. The word "mayor" is nowhere to be found in the Act. As you yourself have noted, the *Legislature* has *opted to use* the *term* "head of council". Depending on the *municipality*, the head of council *can be known, variously, as* mayor, warden or reeve."

He refused to answer questions after that stating he, "*represents the interests of the CITY alone.*"

Weasel Word Translation: He works for the "*MUNICIPALITY*" ONLY. 😊

**Translation:**

**'sets out the prescribed method'** means the Provincial NGO framed the *Municipal Act, 2001*, and independently and unilaterally decided on how elected officials are to be brought into their fold;

**'by which declarations...'** means Declarations of Office in the UN World Government administration, instead of sworn oaths to public office and the inhabitants;

**"assumes"** means the Mayor was appointed by the CORPORATION as Head of Council of the Corporate Partner that is part of the PPP in that corporate municipality, and as CEO of the private corporation;

**'the role'** means, not the public office the people elected him/her to, but the private job of Head of Council assigned to him/her in the

corporate PPP, that will be turned 100% private with no government involved in the matter;

**'requirement'** means that the purportedly elected Mayor has no choice but to sign a Declaration of Office form provided by the corporation involved in the partnership before he can have the corporate job of Head of Council in the UN's MEMBER STATE.

\*if a person refuses to sign a Declaration of Office (in the UN government) they are presumed to have resigned--*Municipal Act, 2001 Section 232(6)*

**"legislature"** means the structure is actually the corporation involved in the PPP (government-corporation partnership), or the now 100% private corporation that has no government involvement;

**"opted to use"** means the corporation or PPP, if not gone fully private yet, but masquerading as government, does not follow proper protocol for change in laws and domestic governing structure, it just decides things unilaterally to suit itself;

**"the term"** means that the corporation and not what we thought was domestic government has changed the term we know as elected Mayor of the city of town, to Head of Council in their corporate structure, which means the Mayor is not a publicly elected official, but an employee of the corporation;

**"can be known as Mayor, Warden or Reeve"** means that to hide the fact the Mayor is working for the corporation as an employee and not a public official working for the electorate, they can continue to use the fraudulent title of Mayor, when in fact they are actually the Head of Council and CEO of the corporation;

**'Solicitor represents the corporate CITY alone'** means he's not holding a public office or working for the electorate even though he is paid by the taxpayer, but working for a private corporation that named itself the The Corporation of the CITY of GUELPH so that the public would not know about the seamless transition of the public land and government, to a fully-owned and controlled private corporation that first was in a 'partnership' with the government.

**\*\*Note: Guelph's solicitor states: The Head of Council is what was formerly Mayor.**

Can the reality of enslavement be made any clearer???

After the fraudulent municipal election run by the Clerk and the municipal corporation, leading the public to believe they elected the trustees and administrator of the government of the geographical area, the transfer to status of corporate employee is required. The Declaration of Office (inside

the UN) **MUST** be signed before any elected official can assume duties, not as elected, but as office holders in the UN government's PPP.

See below: the Clerk does not have to be an employee of the city or town.

## **Declarations of Office [in the UN government] replaced Oaths of Office [in the elected government starting in 1888]**

Now, about officials signing off on a Declaration of Office, a traitorous foreign corporate UN document ...

Since they can't serve two masters at once, the elected officials who lead the electorate to believe they would work only in their interests, switched sides to take an unelected position in the UN government scheme and to work for the corporation that initially was in a Public-Private Partnership with the elected government, but quickly took over completely to become a privately-owned corporation masquerading as municipal government.

**The Oath of Office swears loyalty to the people who elected the individual to the position of trust in government.**

**The Declarations of Office, simply declare they have accepted an offer of employment in the UN's corporate government structure.**

There is a Declaration of Office for the corporation called CITY OF TORONTO, see [here](#).

There is a Declaration of Office for the Indigenous office holders in the UN government, see [here](#).

There is a Declaration of Office for all other 'office' holders in the UN government, who use to be officials in the elected, local government, see [here](#), [here](#), and [here](#).

**In every case, they declare not to be receiving money or rewards in a biased, corrupt or improper manner. But they are doing so in a treasonous manner when accepting to work for a foreign corporation called the UN which has its own government.**

Just because the invader UN corporation used its provincial PPP corporation and NGOs to write legislation and use weasel words that appear to give it the lawful authority to 'restructure' our municipalities, doesn't mean the UN does have such authority, since they were NOT

**ELECTED and the authority to govern comes from being elected, not appointed.**

**Since the mid-1990's, expansion of urban areas, changes in responsibilities of local government and provincial government initiatives in Ontario have led to a massive wave of municipal mergers, all without the mandatory public plebiscite. The most important changes saw some counties and regional municipalities merge with their constituent local municipalities. As a result, the number of municipalities has been reduced by more than forty percent between 1996 and 2001, from 815 to 447.**

**To see how many counties and cities **have been restructured since 1996**, [click here](#) for the Ontario government webpage.**

**The UN's NGO, the FCM wrote a fraudulent *Municipal Act*, 2001, that makes legal (but not lawful) the restructuring of a domestic government to suit a foreign UN world government.**

**All the Declarations refer to a 'promise' to the UN and office (as in a contract between a corporation and an employee), and a declaration that this employment contract is of the same force and effect as taking an oath to their electorate that elected them!**

**Through the Declarations, they are giving a foreign government employer and corporation masquerading as a domestic government, the same status as the former domestic government they took-over using PPPs and NGO's.**

**All Declarations are signed by a 'declarant' that has now accepted employment with a corporation masquerading as government, instead of **SWEARING** an oath of office as an official of the elected government before a Commissioner of Oaths in the position of 'affiant'.**

**Signature of declarant?? No Seal, No Coat of Arms, No Crest? This is a *De facto* Mayor who holds not Public Office, but instead a job in the UN government structure.**

**All the Declarations refer to serving the King, however**

- (a) the CROWN ended all colonization of provinces in its commonwealth in 1931**
- (b) in 1957, the fictitious Queen Elizabeth II abdicated her position as Queen of England and Head of the Church of England by declaring loyalty to the Vatican corporation, and the Catholic Pope, and**
- (c) in 1985, legislation was passed to transfer control of the corporation masquerading as the corporation of CANADA, by way of having the *United Nations Act*, 1985, supersede the Canada Act,**

**under which they created the fake Constitution Act and Charter of Rights and Freedoms.**

**How can an unelected, NGO CITY Clerk swear in an elected public official?  
How can an NGO CITY Clerk run a municipal election as they are doing?**

**(Remember, they are not employees of the government, but staff of the corporation masquerading as government.)**

**The NGO CITY Clerk is an employee of the corporation so they can't lawfully swear in an elected official, because they are not Commissioners of Oaths, therefore they declare a Declaration of Office (in the UN PPP or NGO corporation), instead of commissioning an oath of office, as would have to be done by an authorized Commissioner for taking Oaths.**

**A sworn Oath makes the Mayor an elected official and trustee.**

**A Declaration of Office makes the Mayor a GLOBAL MAYOR for the UN and a CEO of the UN's PPP.**

**More proof the Mayor works for the UN government:**

- **It was the Mayor that ordered needles in arms and lockdowns in his jurisdiction during COVID in violation of the *Health Care Consent Act*.**
- **The Mayor, in his position as UN Head of Council in the corporate public-private partnership, did the following as the now imposter elected official:**
  - **allowed the World Health Organization (WHO) NGO to come to town and perform vaccine clinical trials;**
  - **allowed public health authorities to violate the provincial *Healthcare Consent Act*, and all human rights of every inhabitant;**
  - **allowed experimentation and data collection, police intimidation and employer threats against their residents; and**
  - **signed a Local Emergency Declaration Form like those discussed earlier.**

**Global Mayors MUST follow Global Orders.**

**The COVID Pandemic was a test run of how solidly the UN system was in place globally.**

**UN Sustainable Goal #3: "TAKE experimental INJECTIONS FOR THE COMMON GOOD!" aka doing what you are told because we said to.**

**What happens if a Mayor or Councillor refuses to abide by the UN corporation dictates?**

**First, they are refused an office, even if elected. Second, they are punished with bald allegations, taxpayer-funded legal action, personal attacks and violations of their human rights by the rest of the corporate Mayor and Council ...[here is an example](#) (archived [here](#)) from Niagara Region in Ontario.**

**PLEASE RE-READ UNTIL YOU UNDERSTAND HOW THE UN TRAP WORKS AND WHERE THE 'RELEASE TO THE TRAP' IS.**
