

Are The UN And George Soros-Funded NGOs Behind The Illegal Invasion Of America? Take A Look At This And Decide For Yourself

(Tea Party PAC) – One of the biggest hot button issues of the day is the crisis at the border with thousands of illegals coming in huge masses from South America to invade our nation, demanding asylum.

This is one of the reasons why President Trump has been pressing so hard for the border wall and for increased security down along the border. Many of those folks who want to come across have diseases, criminal records, and violent pasts.

This is contrary to the reports you hear from the mainstream media, which try to vilify the president and anyone who doesn't buy into their pro-illegal immigration propaganda.

One has to wonder if what's happening down there at the border is an organized effort put together by someone powerful who is an enemy of America.

Perhaps someone like billionaire George Soros perhaps?

Well, as it turns out, alternative media outlets have been claiming just that for quite some time, though there have been many attempts to silence their voices.

Let's take a look at some of the evidence these outlets have been presenting that makes the case Soros and the United Nations have their fingerprints all over this mess at the border.

Links to sources will be provided down below.

An article titled, "DHS, Jeb Johnson, Proclaimed: Gun Control On Tap. DHS Will Assist To Pass Laws!" Showcases how former Obama DHS Director Jeh Johnson was all gung-ho with the former president's anti-American agenda, as well as being lockstep with Soros' Agenda 2030 and UN Agenda 21.

Here's a few bits from the aforementioned article:

- In Sept. 2013, it was reported: the UN Arms Trade Treaty was written in secret by the Obama/Hillary Clinton State Department, along with Russia, China, France and Britain. Article 2 defines the conventional arms covered, which include battle tanks, artillery systems, combat aircraft, attack helicopters, warships, missiles — and "small arms and light weapons." Article 3 of the treaty places UN prohibitions on "ammunition/munitions fired, launched or delivered by the conventional arms (including small arms) covered under Article 2." Article 4 puts all "parts and components" of weapons (including small arms) within the scheme. Several places in the treaty text, including Article 5, require all countries to "establish and maintain a national control system, including a national control list." Moreover, it declares, "Each State Party is encouraged to apply the provisions of this Treaty to the broadest range of conventional arms." Article 5, Section 4 says each State Party "shall provide its national control list to the Secretariat, which shall make it available to other States Parties."

- Fast forward to Oct. 2015, and who recalls L O R E T T A 's speech at the UN, you know, the one which included the Orwellian initiative to combat "violent extremism" – whatever the hell that means. Part and parcel thereof, another gobbleygook invention – the "Strong Cities Network"– is unveiled. Hmm. WTF are they hiding?? Well, said doublespeak is the backdrop for the Marxist/Islamist bent AG's pronouncement: the US formed a "Global Police Force Partnership with the UN"! Yes, the UN is the defacto controller of America. Full stop.

Check out this video, which gives you an inside look at what's going on with the nightmare at the border.

In the video, a woman from Missouri mentions how she came to learn all about her state's refugee immigration plan through attending meetings sponsored by the United Nations.

According to her, refugees are brought into the United States through an alliance with the UN Refugee Resettlement Organization Offices of Refugee Monitoring, which is located in Washington. Where else would a diabolical organization bent on the destruction of the American way of life be located other than the capital of corruption? Makes perfect sense when you think about it.

In her state, the Missouri Social Services office then administers various welfare programs to the refugees including food stamps, housing, medical care, money, and even jobs.

These individuals are given passports and Social Security numbers so that they then become eligible for Social Security benefits. Refugees are then screened and many of them are told to apply for lifetime disability benefits.

Like was stated earlier, illegals are a drain on our system. These benefits are already too expensive for our own citizens to have, let alone the added weight of illegals who overburden the system.

Then again, that's probably the point, right? Collapse the system so you can replace it with something else and no one will bat an eye? That's the kind of thinking Soros does.

Many of the refugees also lack proper vaccinations and bring communicable diseases like leprosy, smallpox, tuberculosis, and others.

The woman went on to say that many refugees are not properly vetted and many of them are known FUNUs, which stands for "full name unknown." Terrorists could be sneaking in right under the radar, setting up sleeper cells all over the country.

Trump has managed to reduce the number of refugees from 110,000 down to 50,000. Unfortunately, it's not only folks on the left calling for refugees to be let into our nation. Even Republicans like Paul Ryan supported bringing in 300,000 refugees, putting America in danger.

All of this is why each and every one of us needs to be involved in local politics and be aware of what's going on in our communities and at the state level. The federal government isn't the only one that's corrupt.

Progressives have infiltrated every level of government and if we want to prevent the collapse of our nation and our free market system, we have to be diligent

watchers, educated and ready to act.
