## Overview

Credit to Stop World Control for all of this: Please see the [Stop World Control report here](#) for more.

Please read this in conjunction with our upcoming **HOMOSEXUAL INVASION** and **PEDOPHILE INVASION** series, as well as this [special PDF](#) (Sex Trafficking Epidemic in Canada), and this [special PDF](#) (SOGI horror).

***"Schools must equip children to have sexual partners" ~ states the UN and WHO***

The evidence report reveals how the World Health Organization (WHO) and United Nations (UN) are sexualizing little children in primary education worldwide, for the purpose of normalizing pedophilia. The report consists of nothing but solid evidence, with many official documents, videos, books, archives, etc. All PDF documents may be downloaded from the references section at the end of the report.

***"Little children are sexual beings who must have sexual partners and begin with sex as soon as possible. For this reason, kindergartens and elementary schools must teach children to develop lust and sexual desire, learn masturbation, build same-sex relationships, use online pornography, and learn different sexual techniques such as oral sex." ~ United Nations and World Health Organization***

**The above is a paraphrased summary of the official guidelines issued by the World Health Organization and the United Nations to educational authorities worldwide. Meanwhile, judicial organizations are issuing statements that sex between little children and adults should be legalized, while media outlets and political parties are calling for the acceptance of pedophilia as a "normal sexual orientation".**

**While Canadian politicians are slowly lowering the age of consent, as you can see [here](#), which has proven to attract foreign pedophiles, Finland has made sex between adults and children legal.**

## Finnish Court Rules Sex With Children Is 'Permitted'

Sean Adl-Tabatabai

2 weeks ago

Finland's Supreme Court has ruled that sex with children as young as 10 is not 'rape' if you come from a culture where sexual relations between adults and kids is 'normal'.

### The Educational Smut Published by the UN and Rutgers Foundation

According to Stop World Control, in the spring of 2023 Rutgers Foundation launched a nationwide curriculum in The Netherlands with the name "Spring Fever". A school poster was put up in elementary schools nationwide.

Stop World Control translated the book into English for their worldwide audience and added highlights to reveal the message of this school poster.

- Two boys hold hands and say, "Yes, we both want it".
- Two young girls find a "safe place" to have sex.

translated:

(source: Stop World Control)

The UN's curriculum "Spring Fever" aggressively pushes the theme of Homosexuality onto unsuspecting and vulnerable children.

Part of the Rutgers/WHO/UN school program "Spring Fever" is handing out t 3D clitorises to little girls to encourage them to start masturbating. This is of course defended with claims that it is important for girls to know their own body.

As of 2023, this is now routine in European schools, in Florida, Scotland and reports continue to come in to Stop World Control who did the first major report on this entire horror against little children.

When Kathleen Wynne, lesbian former Premier of Ontario forced 'sex education' on Ontario children, she knew exactly what she was doing – advancing the homosexual agenda to make it legal and normal for adults to have sex with children in Canada. The sex education material was created by her great friend, convicted child pornographer, Benjamin Levin.

## **Pedophiles Setting Standards for Sexuality Education!**

The agenda to ensure that little children have same-sex sexual partners is being further developed by the World Health Organization (WHO). Their document, "[Standards for Sexuality Education in Europe](#)", (archived [here](#)) contains the following instructions for kindergartens and elementary schools: pages 38-44 of the 'Guide':

**√Children between 0 and 4 years must learn about masturbation and develop an interest in their own and others' bodies.**

**√Children between 4 and 6 years must learn about masturbation and be encouraged to express their sexual needs and wishes.**

**√Children between 6 and 9 years must learn about sexual intercourse, online pornography, having a secret love and self-stimulation.**

**√Children between 9 and 12 years should have their first sexual experience and learn to use online pornography.**

**On page 40 of the "Standards for Sexuality Education", schools are instructed to teach four-year-olds about "same-sex relationships".**

**And on page 44, educators are instructed to teach nine-year-olds about "friendship and love towards people of the same sex".**

**In the practical application of WHO's partner, the Rutgers Foundation, we see that this is not just about informing children, but it's all about actively encouraging them to go down the path of homosexuality - as early as possible.**

**The UN's School Book 'What is sex?' is focussed on teaching 6-year old school children how to engage in homosexual sex, particularly oral sex.**

**One of the children's books recommended by the Rutgers Foundation for use in all elementary schools is called 'What is sex?' by Channah Zwiép.**

Below is an excerpt translated from the page shown in the image below --

**"Blowjob is sex with the mouth. That is why it is called oral sex."**

**"Have you ever given yourself a kiss on a soft spot of your body? Try it. How does that feel?"**

**"The skin of a dick or vagina is also very sensitive. Because of this, people sometimes like to touch each other there with their mouths. When someone licks or suckles a dick, this is called sucking. Of course, the same is true for a woman. If someone licks a vagina, this is called pussy eating."**

**Remember, this is directed at 6-year-olds!**

**Rutgers' brochure for elementary schools also recommends child pornography for six-year-old kids.**

**The unelected, pedophile networking United Nations has issued the document "[International Technical Guidance on Sexual Education](#)". It is the official guideline for elementary schools around the world. The goal of this document is described on page 16: equipping children to have sexual relationships. Learn about it**

and other pages from the document.

**The goal of this document is described on page 16 of the guide.  
In their own words:**

***"It aims to equip children...  
to develop sexual relationships".***

The pdf version of the UN International Technical Guidance on Sexual Education is seen [here](#) and saved as [PDF here](#) in case the link is censored. It is clear that the UN/WHO and their publisher, Rutgers have decided that kids must begin with sex as soon as possible. No doubt, they will also 'guide' them how to have abortions when they become pregnant.

On page 17, the United Nation sexplains that this guide is intended to help children build relationships with romantic or sexual partners.

On page 71, educators are instructed to teach little kids from the age of 5 about kissing, hugging, touching and sexual behaviors.9-year-old children are to be taught about masturbation, sexual attraction and sexual stimulation.

## 7.2 Sexual Behaviour and Sexual Response

### Learning objectives (5-8 years)

**Key idea: People can show love for other people through touching and intimacy**

Learners will be able to:

- ▶ state that people show love and care for other people in different ways, including kissing, hugging, touching, and sometimes through sexual behaviours (knowledge).

**Key idea: Children should understand what is and what is not appropriate touching**

Learners will be able to:

- ▶ define 'good touch' and 'bad touch' (knowledge);
- ▶ recognize that there are some ways of touching children that are bad (attitudinal);

### Learning objectives (9-12 years)

**Key idea: People have a sexual response cycle, whereby sexual stimulation (physical or mental) can produce a physical response**

Learners will be able to:

- ▶ describe male and female responses to sexual stimulation (knowledge);
- ▶ state that during puberty boys and girls become more aware of their responses to sexual attraction and stimulation (knowledge);
- ▶ explain that many boys and girls begin to masturbate during puberty or sometimes earlier (knowledge);
- ▶ acknowledge that masturbation does not cause physical or emotional harm but should be done in private (knowledge).

**Teach 9 year old kids about masturbation**

**(9-12 years)**

- ▶ explain that many boys and girls begin to masturbate during puberty or sometimes earlier (knowledge);

**(5-8 years)**

**Teach 5 year old kids about sex**

- ▶ state that people show love and care for other people in different ways, including kissing, hugging, touching, and sometimes through sexual behaviours (knowledge).

(source: Stop World Control)

**The United Nations has decreed that elementary schools must teach little kids about masturbation, sexual behaviors, sexual attraction and sexual stimulation.**

**Teaching little kids to have sex with same-sex partners is a must according to their curriculums that are now international. Rutgers states to educators that the goal of this sex education is to give children ideas so they will start with sex sooner.**

## **Sickening Invasion of Drag Queen Perverts**

**In Canada and the USA, we see the sickening invasion of drag queens in countless schools, where children are exposed to perverse sexual dances, disgusting stories, and the abnormal outfits of perverted freaks who prey on children.**

**Ask yourself:**

**Who on earth wants homosexuals to perform sexual dances in front of little children?**

**What is the agenda behind this?**

**In St. John's Library of Portland, Oregon, children were photographed laying on the body of a drag queen. What does a child gain from laying on top of a freak?**

(source: Stop World Control)

**The sudden invasion of drag queens into thousands of schools worldwide is clearly a strategically-orchestrated operation, similar to the sudden eruption of transgender madness, which literally came out of nowhere to now infect everything everywhere. All of this is happening simultaneously. See [here](#) for details about this Drag Queen invasion in the lives of little children.**

**Several schools are organizing sex games, in which kids take the genitals of their classmates in their mouth, lick them, put their fingers in the vagina of girls and so on. Below is a news report about sex games at an elementary school in The Netherlands.**

## **Conclusions**

**Children can never unsee, unhear, undo what they are being made to do in the schools by pedophile teachers and educators.**

**It is one thing when a person struggles with sexual identity, but it is a whole different realm when sexual confusion is pushed into elementary schools to indoctrinate children into pursuing a homosexual lifestyle.**

**It is wise to read the HOMOSEXUAL INVASION page to learn how homosexuals have infected every level of government, of every school and most institutions.**

**Despite the physical and mental damage to those who end up in the lesbian/gay lifestyle, these perverts are pushing little children towards homosexuality as directly instructed by the World Health Organization and the United Nations.**

**To save the children, everyone must demand that the Canadian institutions and government uncouple completely from the pedophile-laden United Nations and World Health Organizations.**
